OBITUARIES

TERRY — Virginia Ann and great-great-grandchildren Terry, aka “Granny,” 91, passed through Heaven’s gates on Jan. 17, 2017, in Florence.

Virginia Terry

Loving, kind and an inspiration is how her 10 children and 90-plus grand, great-

describe her memory. At Virginia’s request, a private service will be held for the family.

Private cremation rites were held through Burns’s Riverside Chapel Florence Funeral Home.

We are Florence owned and operated, investing local dollars back into our community!

Oregon State Police identify man who died on Highway 126

On Jan. 31, at about 1:25pm, Oregon State Police Troopers (OSP) were dispatched to a report of a male jumping in and out of traffic on Highway 126 near milepost 11, 3 miles west of Mapleton in Lane County.

While responding to the call, a report came in of a pedestrian being struck by a vehicle in the same area.

Once on scene, OSP determined the pedestrian had died as a result of his injuries. The description of the pedestrian kill matched the calls received

earlier.

On Feb. 1, an investigative team was able to determine the identity of the male as 48-year-old Michael Joseph Griffis, of the Florence area.

The operator of the 2015 Dodge commercial van, 34-year-old Kaley Hewitt, of Independence, Ore., was not injured and is cooperating with the investigation. OSP was assisted by Western Lane Ambulance District, Siuslaw Valley Fire and Rescue and Oregon Department of Transportation.

Dave's RE-CORNER

Most people have heard of the 3Rs of environmentally friendly behavior-

REDUCE is to use less of something. Use less water, turn off lights, use both sides of a paper.

REUSE is to use an item again. Refill a water bottle, reuse a container and buy reusable bags.

RECYCLE is to make new items from old ones; recycle bottles, glass, paper, cans, plastic, cardboard & more.

Tip
 In winter cleaning, use the least-hazardous product to do the job; assess your needs and read the labels.

Especially in winter months, your house is closed more airtight. Toxic products can concentrate fumes in the air you breathe and harm your health. Young children can be especially vulnerable to these effects. Water down your drain also carries residues from your home, and many harsh household chemicals are not removed by sewage-treatment or septic systems. These waters later empty to underground water and rivers.

Quiz Answer to Previous Quiz: B Reusing

If you take your old oil filter to a drop off site you are....
A) reducing. B) reusing. C) recycling.

Did you Know?

People in the U.S. make up 5% of the world's population but use 25% of the world's resources and generate 30% of its garbage.*
