

THE RECORD

OBITUARIES

STONE—Dorothy Ann “D’Ann” Stone, 80, of Eugene, formerly of Florence, passed away Feb. 9, 2017, after a long battle with breast cancer.

D’Ann was born to Gordon and Mary West in Fallbrook, Calif., on June 6, 1936. After her father died during World War II, her mother married Philip Strother and, in 1946, the new family moved to Westport, Ore., where D’Ann graduated as valedictorian in 1953 from Clatskanie High School.

During her senior year she was named Miss Clatsop and at the Miss Oregon Pageant was awarded Miss Congeniality. It was also during this year she met the love and best friend of her life, John Burton Stone, on a blind date.

After graduation, D’Ann attended the University of Oregon on a full academic scholarship, joined the Alpha

Chi Omega sorority and was elected to the student council. In June 1958, D’Ann crossed the country to see John graduate from West Point Academy, and then sped back to Oregon to accept her bachelor’s degree in journalism, with a minor in history.

D’Ann married John in Westport on July 20, 1958.

They embarked together on 21 years of service to the country, living all over the world and raising two fine sons, John Jr. and Bradley. In 1979, John retired from the Army and the family moved to John’s hometown of Florence.

They enjoyed a second career together selling vintage art and framing beautiful works for clientele in the local area and beyond as part of the partnership in The Bay Window Antiques, Art and Custome Framing business on the river in Old Town Florence.

D’Ann retired in 1998, when her fibromyalgia and arthritis prevented continued participation in the daily grind, but she still loved joining John on trips around the West finding new

antiques, prints and books for the business.

D’Ann was preceded in death by John in 2008.

Survivors include her son, John Jr., and his wife, Kim; son Bradley; grandson Aaron Burton Stone and his wife, Kelsi; granddaughters: Silken and Kara Ann Stone; sister-in-law Mary Stone-Carlisle, brother-in-law Sheldon Meyer; neices Carrie Carlisle-Boyd, Beth Carlisle-Higley and their families.

The family is planning a celebration of D’Ann’s life at Willamette National Cemetery, where she will join John in entombment of their urns — together once again, forever.

WHEELER—Wendell A Wheeler, 93, of Florence, passed away Feb. 20, 2017.

Wendell was born Feb. 6, 1924, in Mountain Park, Okla. He grew up during The Great Depression and learned the value of a dollar and hard work.

He learned the upholstery trade and had his own shop from that time on. He got his pilot’s license and spent some

time in the Navy before he moved to California, where he had an auto interior shop and ran a party boat in San Francisco Bay.

He then opened an aircraft interior shop. Wendell eventually relocated to Southern California, where he bought a boat hull and completed a 59-foot motor vessel.

He once again opened an aircraft interior business and then turned his talents to RV interiors. His wife’s early retirement brought him to Florence, where he once again opened a small shop and worked on whatever people brought in — he rarely said “No, I can’t.”

He was always going to retire... next year. Burns’s Riverside Chapel Florence Funeral Home is in charge of arrangements.

Bridge crews to work 24 hours a day through March 3

Oregon Department of Transportation reports that Hamilton Construction crews will be onsite at the Siuslaw River Bridge working 24 hours a day through March 3 with high noise-generating activities expected between 4 p.m. to 2 a.m.

Residents and those passing by can expect to see containment structures begin to move south on the bridge as progress is made.

As requested by residents and the City of Florence, a fence is being placed around the staging yard west of Old Town on Bridge Street. Crews

expect for most work to move to the south end of the bridge soon, but there will continue to be a staging yard at that location.

Sandblasting the bridge and spraying the zinc coating are noisy operations that must be done separately, in containment structures. The project is scheduled to be completed in March 2019.

More information on the project is available at www.Siuslawbridge.com.
