

Young Living Essential Oils

Tia Akers is an independent distributor for Young Living Oils. Tia recently retired from a 36-year career as a 911 operator. She still works part time as an instructor for the State of Oregon.

Misty Thrash is an independent distributor of Young Living Oils. Misty is a mother of 5 active children. She works full time as an office manager and is a member of the school board.

Misty and Tia are a mother and daughter team. Our local oil group called The Essential Temple is very active. The primary goal is education. We

want people to know that there are natural alternatives available. We hold classes and social events almost every month. We do group and one-on-one classes. All of our classes are free to new oil users.

Using essential oils is not a new idea; some of the earliest recorded uses of essential oil precursors began in ancient Egypt. Frankincense is men-

tioned in one of the oldest known scientific records dating from the 16th century B.C.E.

Essential oils can be diffused, inhaled, applied topically, incorporated into massage or taken internally. They can be used to: Inspire a positive emotional state, enhance your physical wellness, purify your home, refine your skin and create a deep spiritual awareness.

Young Living Essential Oils sets the standards for essential oil purity by carefully monitoring the production of its oils through a Seed to Seal process.

Black Diamond Flooring

Black Diamond Flooring is proud to have served the Florence community now for more than 16 years.

We have traditionally taken a much different approach to interior finishes than the "big box stores."

While cost and color will always be important, we feel that other needs such as ambience and homeowner specific performance is equally important.

We feature floors that are either waterproof or highly

water resistant, including brand new technology in carpet backing by Shaw.

Come see us at our Home and Garden Show booth for more details, or visit us online at www.blackdiamondflooring.com.

Josh Lowe's Dr. Energy Saver

Do the rooms in your home struggle to stay at a comfortable temperature? Are you experiencing outrageous energy bills? There are many factors that can affect your home's envelope and therefore its efficiency.

Fortunately, you can make your home more energy efficient and enjoy it once again.

Josh Lowe's Dr. Energy Saver is dedicated to properly

weatherproofing your home. We perform an energy evaluation to pinpoint your home's trouble areas, and we know the right product to solve comfort issues you are facing in your home.

Our services include insulation from the crawl space to the attic, duct sealing and repair, weatherization, ductless heat pumps, heating and air conditioning servicing and upgrades

and window and door replacements.

Since the beginning of our company in 2006, we've listened to our customer's needs, making them comfortable and saving them money in the process. Trust us to get the job done and we will share a lifetime relationship with you.

Garden Show, and visit us online at www.midvalleytractor.com.

Rhino Ceramic Coatings

Welcome to the New Age in ceramic coatings. For over a decade, Rhino Shield by Rhino Ceramic Coatings has pioneered the development and installation of ceramic elastomeric wall coating technology.

Rhino Shield breaks the perpetual exterior painting cycle with its proprietary and revolutionary ceramic coating system, hence our slogan "Never Paint Again!" and "It's Not Paint."

Rhino Shield eliminates fre-

quent house repainting. It looks like exterior latex paint but dries to an 8 to 9 times greater mil thickness and is available in an endless array of colors. It also meets or exceeds all the key tests for coating durability and performance and has been tested by BASF labs.

Rhino Shield contains low VOCs and is nontoxic, low odor and nonflammable. It also waterproofs your home or building and helps prevent mold, mildew and algae

growth. It allows natural water vapors to escape due to its superior breathability properties, thus preventing coating breakdown.

In addition, Rhino Shield works on virtually any surface including wood, stucco, HardiePlank, brick and block.

Visit our Rhino Shield booth at the Home Show and check out our website www.rhinoshield.com.
