

# Fishing from 1B

and 3/year.

Casting spinners, drifting bait or using a bobber and jig can be effective.

### SILETZ RIVER: Steelhead

The river is shaping up after last week's rain. Steelhead fishing is fair. Drift boaters are having fair success from Moonshine Park to Siletz and bank anglers are catching hatchery fish in the Siletz gorge.

Casting spinners, drifting bait or using a bobber and jig can be effective.

### WILSON RIVER: Steelhead

Fishing was slow on the Wilson last weekend due to high water and marginal conditions. It should be dropping

into prime shape by the end of the week and through the weekend. There should be plenty of broodstock hatchery and wild steelhead around, and there have been some big fish coming off the Wilson this year.

All the usual techniques such as side drifting, float fishing, drift fishing, or pulling plugs or divers and bait should be effective.

During high water use brighter colors and larger presentations.

### YAQUINA RIVER: Steelhead

The Yaquina River and Big Elk Cr. are open for steelhead. Fishing is fair. Wild winter steelhead can be retained on Big Elk Cr. with a daily and annual bag limit of 1/day and

3/year. The Yaquina River is open for hatchery winter steelhead. Casting spinners, drifting bait or using a bobber and jig can be effective.

### COOS COUNTY LAKES AND PONDS: Trout

A few hatchery male steelhead were stocked into Middle Empire Lake this week to allow anglers for more opportunity.

Fishing regulations for these stocked steelhead in Empire Lakes are just like the trout regulations. Anglers can keep 1 fish over 20 inches per day and only need their fishing license.

Fishing for trout in other area lakes has been slow. Trout stocking in area lakes will start at the end of February/early March.

### COOS RIVER BASIN: Dungeness crab, bay clams, rockfish, steelhead

Trout fishing in streams is now closed until May 22, 2017.

Currently all steelhead rivers in the Coos Basin are high and muddy.

The West Fork Millicoma River will be the first river to clear. When water conditions are good, anglers are still catching fish throughout the Coos Basin. Anglers are drifting eggs or corkies along the stream bottom or using a jig suspended under a bobber.

Anglers fishing the South Fork Coos River above Dellwood will need a permit from Weyerhaeuser, which they can pick up at the Dellwood office. In the Coos Basin 1 additional hatchery steelhead may be retained per day for a total aggregate of 3 adult fish harvested daily.

### COQUILLE RIVER BASIN: Crab, steelhead, salmon

Trout fishing in streams is now closed until May 22, 2017.

All of the Coquille Basin steelhead rivers were high and muddy this past weekend. Anglers have been catching hatchery steelhead at LaVerne Park on the North Fork Coquille River and on the South Fork Coquille River from Powers downstream to Broadbent.

Bank anglers have been plunking with Spin-n-Gloss and bait near the town of Coquille. Anglers have had success drifting eggs or corkies. In the Coquille Basin 1 additional hatchery steelhead may be retained per day for a total aggregate of 3 adult fish harvested daily.

Recreational crabbing is open in the Coquille estuary but crabbing is very slow due to the large amounts of fresh-

### water coming downstream. TENMILE BASIN: Trout, bass, steelhead

Trout fishing in the streams of the Tenmile Basin are now closed until May 22.

Trout fishing in Tenmile Lakes is open all year.

A few steelhead have been reported in Tenmile Creek. Anglers will have success plunking near the acclimation sites or fishing a jig under a bobber. Eel Creek is now open to steelhead fishing.

In the Tenmile Basin 1 additional hatchery steelhead may be retained per day for a total aggregate of 3 adult fish harvested daily.

Largemouth bass fishing has been slow. Anglers are catching bass near structure or on the deep end of the weed lines using jigs or rubber worms.

### UMPQUA RIVER, SOUTH: Steelhead

Good numbers of steelhead are being caught up to and above Canyonville and anglers are hooking into a few hatchery fish.

Pay attention to river gages for the South as it has been high and unfishable a large portion of the time this season.

### WINCHESTER BAY: Bottomfish, perch

Fishing for bottom fish in the Triangle and South jetty has been successful.

### PACIFIC OCEAN AND BEACHES: Bottomfish, surf

### perch, crab

Recreational crab harvesting is open along the entire coast from the Columbia River to the California border.

Bottom fishing has been good when the ocean conditions allow.

Recreational harvest of razor clams is closed on the entire Oregon coast due to elevated levels of domoic acid. Harvest of mussels is open on the entire Oregon Coast.

Before any shellfish harvest trip, make sure to check the Oregon Department of Agriculture website for any updates.

Surf perch fishing has been good when ocean swells are small. Surf perch anglers will do the best fishing with sand shrimp or Berkely Gulp sand worms.

### • OCEAN SALMON

The ocean recreational salmon fishery off Oregon is currently closed. Please stay tuned for updates on the 2017 seasons. Details, including regulations, and more information on ocean salmon seasons.

### • BOTTOM FISHING

When the weather allows, fishing in the winter months for lingcod and rockfish can be fun and successful. Some anglers that were able to fish last weekend caught limits of rockfish and some lingcod.
