

# Lane County Parks to host Master Plan community workshops

Lane County is seeking community insight regarding the Parks and Open Space Master Plan to help create the best future for Lane County parks. A 24-member, community-led task force began meeting in December to craft draft mission and vision statements and potential "service scenarios" for County parks.

Feedback from the community is instrumental in helping the task force refine the recommendation it will ultimately make to the Board of County Commissioners. "Our parks and open spaces are crucial to the community's economic vitality, quality of

life, and public health," said Parks Master Plan Task Force member Ashely Adelman. "They also provide an important legacy for future generations. Hearing from the community is critical in order for the plan to reflect our residents' preferences and priorities. "I can't encourage people

enough to take a few minutes to complete the online survey or attend a workshop." A brief, online survey will provide direct feedback to the Parks Master Plan Task Force. Take the survey at [bit.ly/lanecountyparks](http://bit.ly/lanecountyparks). Residents and stakeholders are also invited to attend one of six community

workshops to provide feedback regarding best practices and community priorities. Community workshops will take place at locations throughout the county to reach as many community members as possible. Session 2 will take place in Mapleton on Wednesday, April

26, from 6 to 7:30 p.m., in the Mapleton High School Library, 10878 E. Mapleton Road) Session 5 will be held in Florence on Thursday, May 4, at Siuslaw Valley Fire and Rescue, 2625 Highway 101, from 6 to 7:30 p.m. To stay informed, visit [www.lanecounty.org/ParksPlan](http://www.lanecounty.org/ParksPlan).

### Meet Randal

My name is Randal. I can be a little shy, but once I get to know you I can be quite flirty. I also like to show off how smart I am... I know how to open a tin of treats. And I like to show this trick over and over and over and, well I really like treats. I have a corneal ulcer in my eye - had it since I was a kitten, but I see ok and get around just fine. I've also had urinary tract problems but I am on a special UR diet which is keeping me in good health.

If you would like to meet Randal or any of his friends, please visit us at:
