Radio Club to conduct 24-hour exercise

On the weekend of June 24-25, members of the Central Oregon Coast Amateur Radio Club (COCARC) will participate in Field Day 2017. COCARC will be joining thousands of amateur radio operators worldwide to demonstrate their effectiveness and proficiency in providing critical communications after a catastrophic event such as an earthquake or tsunami. The event begins at 11 a.m. on Saturday, June 24, and will operate continuously for 24 hours until Sunday, June 25, at 11 a.m. Conducting operations from Sutton Campground Group Area C, COCARC members will establish several amateur radio stations on emergency power, capable of communicating all over the Pacific Northwest and the west coast; indeed, if conditions are favorable, all over the world. One station will be a Get On The Air (GOTA) station for public education and demonstration. Field Day is the largest amateur radio event in the world. Last year, more than 2,600 different groups and more than 37,000 licensed operators all across the US and Canada participated in this event. This year, ham operators will construct emergency radio stations at fire stations, parks, shopping malls, schools, and back yards all around the country. The Amateur Radio slogan, "When All Else Fails, Ham Radio Works" is more than

just words. There are over 700,000 FCC licensed Amateur Radio

operators in the USA, and more than 2.5 million around the world.
