Coin Show

Coin and stamp collectors will converge for the annual Coin and Stamp Show, which includes collectors from throughout the Northwest region and beyond.

Coins were introduced as a method of payment around the 6th or 5th century BCE. The invention of coins is still shrouded in mystery:

According to Herdotous (I, 94), coins were first minted by the Lydians, while Aristotle claims that the first coins were minted by Demodike of Kyrme, the wife of King Midas of Phrygia.

Numismatists consider that the first coins were minted on the Greek island of Aegina, either by the local rulers or by king Pheidon of Argos.

At the 21st annual Coin and Stamp Show, nearly 50 vendors from Oregon, Washington, Idaho, California and as far away as Connecticut will be exhibiting, trading and selling coins from around the world. On hand will be U.S. territorial gold coins, as well as coins from Greece, Italy, the Middle East and more.
