

Viks from 1B

Siuslaw was the first to score in the game, with senior running-back Quincy Rusk breaching the end zone on a 2-yard carry after a 10-play, 79-yard series less than four minutes into the quarter.

The conversion attempt failed, leaving the Vikings to kick off to Pleasant Hill, whose Cody

Morrell brought the ball back 85 yards to tie the score at 6-6 after a failed PAT.

With 2:23 remaining in the period, senior quarterback Jared Brandt strung together an 8-play drive for 51 yards, capped with a 3-yard carry by Brandt to put Siuslaw up 12-6.

The Billies' touchdown in the second quarter, on an 18-yard run by Stephen Parmenter and kick

from Amanda Whetten, edged Pleasant Hill into a 1-point lead entering the half, 13-12.

In the second half, the Billies struck quickly, scoring three times in the first six minutes — on a 10-yard run, a 25-yard pass reception and an 11-yard carry — for a 33-12 lead.

Siuslaw's senior wide receiver Trent Reavis gave the Viks a spark offensively with a 10-yard

pass reception from Brandt with 2:16 remaining in the third quarter, but the Billies were able to score twice more in the fourth period to secure a 45-18 win.

Friday, Siuslaw will wrap up its preseason on the road at Newport before rolling into far West League play Sept. 22 at North Bend.

Kick off for both games is set for 7 p.m.

Fishing from 1B

streams and rivers is two per day over 8-inches.

WILSON RIVER: *Steelhead, trout*

Summer steelhead fishing on the Wilson has been moderate to slow, but there are fish throughout the system. September can be a great time to target these fish as cooler nights lower water temps, and fish that have been holding get more active.

Target riffles and the top of pools during first and last light, and concentrate on deeper holding pools once the sun is on the water.

Fishing stealthy, with light gear, and targeting first and last light is often the key to success with these fish.

The Wilson doesn't open for fall Chinook above tide water (Hwy 101 bridge) until Sept. 16.

Trout is also season open and there should be some nice cutthroat around. Remember, the limit on streams and rivers is two per day over 8 inches.

YAQUINA RIVER: *Chinook, trout*

Trout is season open and there should be some nice cutthroat around. Remember, the limit on streams and rivers is two per day over 8-inches.

COOS COUNTY LAKES AND PONDS: *Warmwater fish, trout*

Largemouth bass fishing has been good in many of the area smaller lakes. Bluegills can be found in area lakes right along the weed lines.

Anglers have still catching rainbow trout at Empire Lakes.

Fishing is best in the deepest part of the lakes.

COOS RIVER BASIN: *Dungeness crab, bay clams, rockfish, salmon*

Streams and rivers are now open to trout fishing until Oct. 31. Fishing is restricted to artificial flies and lures in streams above tidewater. Anglers may harvest 2 trout per day that are a minimum of 8 inches long.

Streams and rivers are now open to trout fishing until Oct. 31. Fishing is no longer restricted to artificial flies and lures in streams above tidewater; bait is now allowed.

Anglers may harvest 2 trout per day that are a minimum of

8 inches long.

Fishing for rockfish inside the Coos Bay estuary has been good one day and slow the next. Anglers are having the most success fishing along the jetties and submerged rock piles. The marine fish daily bag limit for bottom fish (rockfish) is seven fish and a separate daily limit for lingcod (two).

The 7 fish marine bag limit will remain in place, with these adjustments for 2017.

UMPQUA RIVER, SOUTH: *Trout, bass*

The South remains open to trout and warmwater fishing.

Bass fishing has been good around the Roseburg area.

TENMILE BASIN: *Trout, bass*

Streams and rivers are now open to trout fishing until Oct. 31. Fishing is restricted to artificial flies and lures in streams above tidewater.

Anglers may harvest 2 trout per day that are a minimum of 8 inches long. Trout fishing in **TENMILE LAKES, EEL LAKE, SAUNDERS LAKE** are open all year.

Largemouth bass fishing has been very good with anglers catching lots of bass on Senkos and other plastics. Bass will be spreading out and found in deeper water during the day.

Fishing for bass will be best early mornings and evenings.

WINCHESTER BAY: *Bottomfish, perch*

Fishing for bottom fish in the Triangle and South jetty has been successful.

PACIFIC OCEAN AND BEACHES: *Bottomfish, surf perch, crab, salmon, halibut*

Recreational crabbing is open along the entire Oregon coast and has been good both in the ocean and in the bays.

The nearshore halibut season (inside 40 fathoms) is now closed.

Recreational Chinook salmon fishing is open from Cape Falcon to Humbug Mountain.

Anglers may have two salmon per day but is closed to retention of coho except during the selective and non-selective coho seasons.

Anglers have reported catching Chinook outside of Winchester Bay and Charleston last week. The selective coho season closed at

the end of July. The non-selective ocean coho season from Cape Falcon to Humbug Mt. runs from Sept. 2-30 with a quota of 6,000 fish.

The recreational harvest of razor clams is open from Tillamook Head (south of Seaside) to Cascade Head (north of Lincoln City).

The recreational harvest of razor clams is closed from Cascade Head to the California Border for elevated levels of domoic acid. This includes all beaches and all bays.

Clatsop Beaches are closed for the annual razor clam conservation closure. This area includes beaches from the Columbia River south to Tillamook Head. The conservation closure will be lifted on Oct. 1 if domoic acid levels are below the closure limit at that time.

The recreational harvesting of mussels is open along the entire Oregon Coast from the Columbia River to the California border, except from Tillamook Head south to Cascade Head, which currently closed.

Before any shellfish harvest trip, make sure to check the Oregon Department of Agriculture website for any updates.

Surf perch fishing has been good when ocean swells are small. Surf perch anglers will do the best fishing with sand shrimp or Berkley Gulp sand worms.

Fishing is typically best on the incoming tide.

OCEAN SALMON

Local fall Chinook should be starting to stage near most estuary mouths from the Nehalem south as far as the Coquille throughout August and early September.

The Selective Coho (fin-clipped) season between Cape Falcon and Humbug Mountain closed July 31. Coho retention is open and continues through the earlier of the quota of 6,000 coho (no fin clip required) or Sept. 30.

Fishing for all salmon except coho remains open through Oct. 31. Note that during the month of October

salmon angling will be limited to only inside of the 40 fathom regulatory line.

BOTTOM FISHING

Bottomfish fishing continues to be good out of most ports along the Oregon coast, when the winds have cooperated. Angler success for rockfish remained about the same as the last few weeks.

Lingcod fishing is a little sporadic: excellent some days, but very slow other days.

Anglers from the south coast have had better success with lingcod this past week.

Remember to know and understand the new bag limits.

SHELFISH:

MUSSELS

Mussels remain closed from Tillamook Head (just north of Cannon Beach) to Cascade Head (just north of Lincoln City) due to high levels of Paralytic Shellfish Toxins.

Rock jetty structures at nearly every port in Oregon support harvestable populations of mussels.

RAZOR CLAMS

Razor clams remain closed from the Columbia River South Jetty to Tillamook Head (south of Seaside) and from Cascade Head to the OR/CA border coast due to elevated levels of domoic acid. This includes all beaches and bays.

Razor clam harvest is open from Tillamook Head (south of Seaside) to Cascade Head (north of Lincoln City).

BAY CLAMS

Bay clamming is open along the entire Oregon Coast from the Columbia River to the California border.

Check the ODFW Shellfish website for where and when to harvest your favorite bivalves.

CRABBING

Ocean and bay crabbing is open coastwide. Newly molted, larger crab are being caught in the ocean and many bays.

Some of these crab have hardened up a bit while others are fairly soft and have less meat in them. These crab will fill in and harden up through the summer and be high quality crab by mid September.

ATHLETE OF THE WEEK

JORDAN LONG
Junior

VOLLEYBALL

Siuslaw H.S. Volley Ball

Highlight: Viking Volleyball standout **Jordan Long** is this week's Athlete of the Week. Jordan was a consistent hitter in the Lady Viking's matches last week including 7 digs and a pair of kills in their match with Philomath. Coach Jonathan Hornung said that her contributions to the team also kept the Vikings close in their matches with Hermiston and Mountain View in the Canby Tournament on Saturday.

Honorable Mention

EMMA COLLINS

Highlight: Honorable Mention also goes to a Lady Viking Senior, **Emma Collins** for her increased roll and excellent play last week.
