Work to cause delays on Siuslaw Bridge and in Mapleton area

FLORENCE AREA — minutes, but will normally be 5 minutes or less.

ODOT will be making repairs to the existing concrete and reinforcement and replacing the cathodic protection system on the Siuslaw River Bridge through Friday, Oct. 6.

Work will also include adding seismic restraints to help maintain the integrity of the bridge in the event of an earthquake; Replacing existing rail with new ornamental bridge railing, as well as improving pedestrian access to the bridge.

As a result, single-lane closures will be used for materials transfers, bridge rail and other roadwork on the approaches to the bridge.

Delays may be up to 20

The contractor is permitted to have single lane closures on the bridge until 10 a.m. each day while crews perform concrete patch work and sand blasting on the south side of the bridge.

Bridge rail installation is continuing on the north side. Workers will be present most hours of the day.

The job is to be completed by the end of March 2019.

MAPLETON AREA — Work is continuing through Friday, from 6 a.m. to 5 p.m., between Mapleton and Greenleaf as crews finish striping as weather permits.
