Roby's Furniture & Appliance

The roots of Roby's Furniture & Appliance and The Mattress Shoppe began 63 years ago in Tillamook, Ore. But the tree really began to spread in 1995 when the third generation of the family-owned business began to get involved. Within a few years, the Lewis family had purchased two stores in Lincoln County: one in Newport, the other in Lincoln City. In 2005 Roby's purchased Western Lane Furniture in Florence, followed by another store in Astoria several years later. By 2017 Roby's was building a new 30,000-square-foot retail location in its hometown of Tillamook and, when it opened, Roby's converted its original location to a discount center. At the same time, Roby's purchased another established furniture store in McMinnville, bringing the total number of locations to seven.

With those outlets and the company's unique approach to treating customers and employees, Roby's has become one of the highest volume furniture, appliance and mattress dealers in Oregon.

That approach includes a broad number of tools in its toolbox to make sure customers can feel comfortable that they've made a good decision when they buy something. From a well-trained sales team, to no-interest financing, to a 10-day "take it back and exchange it" guarantee, there are plenty of reasons why people who shop at Roby's once, will likely shop their again and again. That 10-day exchange policy extends to everything they sell, even mattresses.

Roby's has also been a leader in the industry with its online presence. Traditional "brick and mortar" retailers have been facing challenges from all manner of discounters and retailers

based on the internet. In today's "Click and Buy" atmosphere, consumers have grown used to being able to shop online and compare prices. Roby's guarantees you will not pay more for the same item it offers that may be available either from a website or another retailer. While it's a broad policy, there are a few logical conditions. It has to be the same model with the same options, and it has to be available for delivery in our market area.

Roby's also believes the purchase experience does not end when you write the check or offer your credit card or cash. The company is in the process of expanding its delivery options. Right now, you can take it with you or schedule a delivery within a few days for only \$39.99. That delivery, by the way, also includes set up, adjustments and hauling off your old furniture, appliance or mattress. The new delivery option currently being explored would be a "white glove" type experience and will feature same-day or next-morning delivery for anything in stock.

Finally, one other distinction that sets Roby's aside is its policy of being closed on Sundays. Sure, Roby's could probably do a lot of business on Sunday, but the company leaders made a clear decision several years ago that they need to give themselves and their team members a day off once a week to spend time with their families and relax. They decided that taking the time to "live" was more important than making more money.

You can find Roby's in Florence open from 9 a.m. to 6 p.m., Monday through Saturday, at 1870 Highway 101 or online 24 hours a day, 7 days a week at www.robysfurniture.com. Or talk to representatives this weekend at the Florence Home and Garden Show.
