

GENERAL NEWS

Woahink clean-up finds lots of plastic

COURTESY PHOTOS

Taking part in the Dunes City Trash Pick-Up on March 31 was the Environmental Team of Florence and local citizens dedicated to protecting the natural environment in our area. They, along with many organizations nationwide, have partnered with Greenpeace to help tackle plastic pollution by identifying the manufacture origin of plastic litter to increase the public's awareness of the problem and heighten public pressure for alternative, environmentally friendly manufacturing.

Deadwood to host exhibit on Japanese internment

The Deadwood Committee for the Architecture of Internment Exhibit and Deadwood Creek Services will host the exhibit "Architecture of Internment: The Build Up to Wartime Incarceration" on Saturday, April 14, from 11 a.m. to 5 p.m. The exhibit explores how Oregonians participated in the decision to incarcerate Japanese Americans and Japanese immigrants during World War II. It is the story of how individuals, organizations, businesses and elected officials advocated for the incarceration of Oregonians of

Japanese ancestry or stood by while it happened. The public is invited to learn more about this hidden history of Oregon and discuss the ways that racism and anti-immigrant policies influence our community today. The self-guided exhibit consists of 13 informational panels featuring historical materials, and a series of short films on the Japanese incarceration that will loop at two viewing stations. At 4 p.m., local author and international diplomacy expert Mel Gurtov will present

"Who Are We? America's Problematic Treatment of Immigrants." The talk will be followed by community discussion and refreshments provided. Copies of Gurtov's most recent book, "Engaging Adversaries," will be for sale at a signing following the presentation. The event will be held at the Deadwood Community Center, located 4.5 miles up Deadwood Creek Rd. For more information contact Cathy Barr at cbarr@casco.net

Florence Household Hazardous Waste Roundup on April 13, 14

Lane County is holding a free hazardous waste roundup for households and will collect up to 35 gallons of hazardous waste per customer. Businesses, schools, churches or non-profit organizations are subject to disposal fees. This will be on Friday, April 13, from noon to 5 p.m. and

Saturday, April 14, from 8 a.m. to 2 p.m. at the Florence Transfer Station, 2820 Rhododendron Drive. All community members are welcome to participate in the roundup.

What to bring: Paint, household cleaners, lawn and garden chemicals, car care products, arts and crafts products, pool chemicals, fluorescent lamps and other household hazardous waste. Check labels for words such as flammable, corrosive, poison, caution and danger.

Don't bring: Empty containers, drums, compressed gas cylinders, radioactive waste,

asbestos, electronics or explosives. Any empty containers can be safely thrown in the trash. For information about disposal of radioactive waste, asbestos and explosives, call 541-682-3899.

What about hazardous waste from businesses? Businesses, nonprofit organizations, schools and churches that generate small amounts of hazardous waste may pre-register for this event. They must pay a fee for disposal of their waste, but most can save money by using this program rather than a contractor.

Electronics recycling: The Glenwood, Cottage Grove,

Creswell, Florence, Marcola, Oakridge, Rattlesnake, Veneta and Vida transfer sites accept the following items for free during normal operating hours (maximum of seven items at a time): televisions, computer monitors, central processing units (CPUs) and laptops. Appointments are required and fees may apply for more than seven items; call 541-682-4120 to make an appointment. There is a \$35 charge for large copy or printing machines and large floor-standing electronics. Call 541-682-4120 for more information regarding hazardous waste disposal for households or businesses.

SIUSLAW PIONEER MUSEUM PRESENTS

A Collection of Fabric Woven by Alice Peckham of Swisshome and a demonstration of the antique 4-harness floor loom used in the Peckham family for 3 generations.

A 4-harness direct tie-up counterbalance 1951 Allen Loom, built-in Milwaukie, Oregon, and woven on by three generations of the Peckham family of Mapleton, was donated to the Pioneer Museum by Peckham with the hope that "[real words involving inspiring others to weave if I remember right]."

The warping process will continue every Saturday at the museum (noon to four) until the job is done and weaving commences. All weavers are welcome to come and help or share ideas, including (1) what we could do next and (2) what commitment we can collectively make to assure that the loom remains an active, interactive, part of our community. That four-hour window offers a good opportunity for Florence area weavers to get to know each other.

Spinners, there is room on the same floor of the Pioneer Museum to bring your spinning wheels to share your craft and maybe inspire some new spinners too. The museum has a few spinning wheels, none near operational.
