**"The Future of Humanity"**  
by *Michio Kaku*

We are entering new Golden Age of space exploration. Formerly the domain of fiction, moving human civilization to the stars is increasingly becoming a scientific possibility — and a necessity, if one day we are forced to leave Earth.

World-renowned physicist and futurist, Dr. Michio Kaku, in his latest book "The Future of Humanity," explores in rich, intimate detail a compelling vision of how humanity may develop a sustainable civilization in outer space. He reveals the developments in robotics, nanotechnology and biotechnology that may allow us to terraform and build habitable cities on Mars and beyond.

He then journeys out of our solar system, where scientists have found numerous planets orbiting neighboring stars and may soon find the holy grail of astronomy: a twin of the Earth. He discusses new technologies such as nanoships, laser sails and fusion rockets that may actually make interstellar travel a possibility, opening up new frontiers to human civilization.

Kaku investigates some of the hottest topics in science today, including warp drive, wormholes, hyperspace, parallel universes and the multiverse. With irre-

pressible enthusiasm and a deep understanding of the cutting-edge research in space travel, in "The Future of Humanity," Kaku takes readers on an exhilarating and inspiring journey to a future in which humanity may finally fulfill its long-awaited destiny among the stars.

**Endowment Books On Display**

A large number of the Endowment Books first presented last week are now on display and ready for check out in the library's center display as well as on the "new book" shelves. The purchase of these books are made possible by contributions to the Siuslaw Public Library's Book Endowment Fund, administered by the Western Lane Community Foundation. The Fund was established in the early 1990's with a contribution from the Friends of the Library, who have made successive contributions since then, as well as numerous individual and community organization donors.

**Trails Locals Love**

On Saturday, June 23, at 1 p.m. in the library's Bromley Room, VisionQuest and the Siuslaw Public Library will be presenting "Trails Locals Love" with Siuslaw National Forest Recreation Staff Officer Dan Matthews; Siuslaw National Forest Trails

Coordinator Kraig Lindelin; outdoor enthusiast and trail-runner Dennis King; and librarian and avid hiker Kevin Mittge.

Learn about trails up and down the coast that locals love, level of difficulty, best use (e.g. running accessibility, etc.) and when to go. Maps and other information will be included. This program is free and open to the general public.

A follow-up program the next day, Sunday, June 24, will feature a hike along the PAWN trail, beginning at 1 p.m., with rangers and naturalists along the trail to point of special features.

**"Ghosts in the Kelp: Sea Otters on the Oregon Coast"**

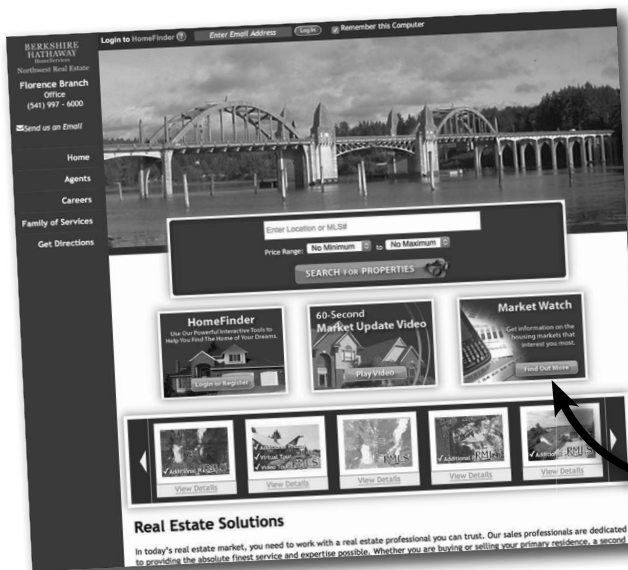

On Saturday, June 30, at 1 p.m., join Robert Bailey, board president of the Elakha Alliance, to discuss the history of sea otters on the Oregon Coast, their ecological and cultural importance, their disappearance and the prospects for their return and recovery.

Please note that this program was rescheduled from an earlier date.
