## Siuslaw bridge sidewalks opening

Sidewalks on both sides of the Siuslaw River Bridge will be open beginning today and will remain open and available for use through late September or early October.

Crews will return in the fall to complete the remaining bridge rail work and finish the sidewalk on the northwest corner of the bridge. All traffic control devices will also be removed until work resumes.

The Siuslaw River Bridge Protection Project has been repairing damaged concrete, applying a surface coating to protect the structure from corrosion, adding sidewalk features, installing seismic upgrades and replacing bridge railings.

When crews return, sidewalk areas will be closed again to protect people from tripping and other work zone hazards. Detour routes for pedestrians and those with disabilities will be available and identified through or around the work zones.

The project is on schedule to be completed in early 2019.
