One for the Gipper

President Ronald Reagan portrayed the “Gipper” in a movie on Notre Dame Football. The Gipper was the greatest-ever player of Notre Dame at the time of the story.

Notre Dame was having a subpar season and were playing the undefeated Army Cadets. Behind at halftime, coach Knute Rockne knew the “Gipper” was hospitalized and seriously ill. He gave an inspired account of the famous player and challenged them to go out and “Win one for the Gipper.” Notre Dame roared back

After being swept by North Bend three times last season, opening the pre-season against their previous Far West rivals with a hard-fought, come-from-behind win Thursday night was particularly satisfying for Siuslaw coach Jon Hornung.

“It was a great way to start the season and especially great to see us come from behind like that,” Horning said as play-

Freshman libero Hayden Muller serves up an ace in game five, where the Lady Vikings steamrolled North Bend with a 15-8 win. Muller had 3 aces Thursday.

Tips for fishing during hot weather

Fishing can get a little tough during these hot summer days — water temperatures increase, aquatic weed growth accelerates and fish get lethargic. Here are some ideas to help you beat the dog days of fishing:

- Fish early in the morning when waters are cooler and fish are more active.
- Look for fish in deeper water, where it’s cooler.
- Focus on warmwater species like bass, crappie, bluegill and walleye.
- Travel to higher elevation lakes and streams where the water, and you, will be cooler.
- Consider a trip to the coast where ocean and bay fishing can be good throughout the summer.

MID COAST LAKES: Mid coast lakes stocking schedule for this year is posted online. Stocking of mid coast lakes began in February. **Siltcoos Lagoon** will not be stocked this year due to continued low dissolved oxygen. Trout scheduled to be released in Siltcoos Lagoon will be diverted to **Cleawox Lake**. In addition, fishing for warmwater species such as bass and other panfish should improve through June as water temperatures warm and these fish get more active. **Ollala Reservoir, Mercer Lake, Siltcoos Lake and Tahkenitch Lake** have warm water species available.
