

NED HICKSON/SIUSLAW NEWS

Members of the Lady Vikings volleyball team react after losing the close, hard-fought third set against Junction City Thursday night that completed the Lady Tigers' three-game sweep.

**Siuslaw** from 1B

had 9 kills for Siuslaw. Defensively, sophomore Lindsey Long and freshman

Hayden Muller had 4 digs each, along with 4 aces from Muller. Senior Falon Borgnino had 2 aces and 3 kills, and junior Mia Collins scored 6 kills and

contributed 3 digs. Sophomores Delany Foglio and Kya Blake had 2 kills each against Elmira. Thursday, Siuslaw was at home to host No. 17-ranked

Junction City (2-3) for what became a hard-fought, three-game sweep of the Vikings. Final scores and stats were unavailable at press time. Siuslaw will get a chance

to play the Tigers again today during the Junction City Volleyball Invitational before heading into the second half of league competition next week. Tuesday, the Viks will be

on the road at No. 1-ranked Cottage Grove, with Marist coming to town Thursday. First serve for both matches goes up at 6:30 p.m.

**Mapleton** from 1B

The victory was due in large part to the serving skills of senior Erin Michael, who launched 11 consecutive serves down the stretch to secure the win. In the second game, Eddyville rallied to tie the game twice, but was never able

to take the lead as the Sailors grabbed the advantage with a 25-20 win. The third set was also hard fought, but Mapleton never relinquished the lead en route to a 25-23 victory. "We also played without two of our starters due to illness," said coach Molly Dooley. "I was extremely proud of the girls for adjusting to new posi-

tions while playing together to get the win." Thursday, Mapleton was at No. 14-ranked Alsea (8-1), where the Sailors were swept in consecutive matches while being held to a total of only 21 points for the match. The Sailors will get a break, then return to the court at home in a re-match with Alsea, beginning at 6 p.m.

**Fishing** from 1B

bobber fishing with bait. Sea-run cutthroat will begin entering the lower river later this month and into the fall. These fish are very aggressive, respond well to flies and lures, and can be up to 20-inches long. **ALSEA RIVER:** Cutthroat trout

Fall Chinook fishing on the Alsea river/bay opened Aug. 1, a few fish are being caught but overall the fishing has been slow

Concentrate your efforts low in the estuary and close to the ocean to catch the fish moving in and out on the tides. Expect numbers of fall Chinook entering the bays and estuaries to increase later in the month and into September. Best techniques include trolling herring/spinners and bobber fishing with bait.

Sea-run cutthroat will begin entering the lower river later this month and into the fall. These fish are very aggressive, respond well to flies and lures, and can be up to 20-inches long. **SALMON RIVER:** Cutthroat trout, fall Chinook

Fall Chinook fishing on the Salmon river/bay opened Aug. 1, expect numbers of fall Chinook entering the bays and estuaries to increase later in the month and into September. Best techniques include trolling herring/spinners and bob-

ber fishing with bait. **SILETZ RIVER:** Steelhead, cutthroat trout, fall Chinook

Fall Chinook fishing on the Siletz river/bay opened Aug. 1, a few fish are being caught but it has been slow. Expect numbers of fall Chinook entering the bays and estuaries to increase later in the month and into September. Best techniques include trolling herring/spinners and bobber fishing with bait.

Note: Salmon fishing in the Siletz river is closed above the marker sign approximately 1,200 feet above Ojalla bridge until Oct. 7.

Summer steelhead are in the river. Fishing has begun to slow down as stream flows decrease and water temperatures increase in the gorge.

Early mornings or late evenings provide the best opportunity to catch these fish. The fishing will improve when we get some cooler weather or a little bit of rain to "stir" things up a bit.

Casting spinners, drifting bait or using a bobber and jig can be effective.

Sea-run cutthroat will begin entering the lower river later this month and into the fall. These fish are very aggressive, respond well to flies and lures, and can be up to 20-inches long.

Trout fishing is open in streams and river. Note: The 3.5-mile bridge (aka Steel Bridge) in the Siletz gorge is open to motorized

vehicles but is only open to public vehicles on the weekend. Anglers can walk/bike in the road during the weekdays. If anglers do walk in they can park at the one-mile gate and start from there.

**WILSON RIVER:** Steelhead, trout

Summer steelhead are present, but it looks like numbers are down a little this year. There are steelhead sporadically throughout the system. Low clear water and warm water temperatures can make fishing for summer steelhead challenging, but there can be some good action.

Drift fishing, spinners, and flies are good choices. Light line, small presentations, and fishing the riffles and deep pools at first and last light can increase success.

Warm water temperatures can stress fish and increase hooking mortality, so anglers are encouraged to avoid catch-and-release fishing during the heat of the day.

Sea run cutthroat are in the tidewater areas and beginning to move upstream. We've had reports of the fishing for them being good this summer. Spinners or flies are good bets for success.

**YAQUINA RIVER:** Cutthroat trout, fall Chinook

Fall Chinook fishing on the Yaquina river/bay opened Aug. 1, fishing has been slow so far.

Sea-run cutthroat will begin entering the lower river later this month and into the fall. These fish are very aggressive, respond well to flies and lures, and can be up to 20-inches long

Trout fishing is open in streams and river. Fishing is restricted to artificial flies and lures, May 22- Aug 31.

**COOS RIVER BASIN:** Dungeness crab, bay clams, rockfish, trout, salmon

Streams and rivers are open to trout fishing. Trout fishing in streams and rivers is slow to due to low water conditions. Anglers can use only artificial flies and lures in streams above tidewater. The daily limit for trout in streams is 2 fish per day and they must be 8-inches or longer.

Through Sept. 30, salmon anglers with a two-rod validation will be able to use rods while fishing for Chinook salmon and hatchery Coho salmon in Coos Bay.

Recreational fishing for bottomfish is open in the ocean along with bays.
