**Home Improvement Tips**

**How To Combat Four Pet Peeves Around The House**

(NAPSA)—If your family is like most, there are a few things that really annoy you. Fortunately, ingenious solutions are available for four of the most common pet peeves when it comes to lighting and electronics:

**1. Never Enough Outlets:** The average family charges up to 12 devices a day. With connectivity more prevalent than ever, the demand for convenient charging options is at an all-time high. The Adorne Pop-Out Outlet from Legrand features three standard receptacles for added power and can disappear into the wall when not in use. Plus, its tamper-resistant plugs will keep children safe. Now you can simultaneously charge phones, tablets and laptops with an outlet made to maximize charging needs.

**2. Lights Carelessly Being Left On:** Constantly reminding people to turn off the bedroom lights? You can install motion sensors that automatically turn lights on when someone enters the room and shut lights off when the room is no longer occupied.

**3. Phone Charger Mysteriously Disappearing:** Scouring your home for a phone charger can be a thing of the past when you replace standard outlets with an instant, cord- and clutter-free way to charge phones, such as the new-to-market Wireless Charger from the radiant Collection.

**4. Lack of Light at Night:** Make the walk to the bathroom or the nursery at night a little brighter by installing night lights in hallways, kitchens and children's rooms. Some night lights even offer adjustable light levels or can convert to flashlights.

Refresh your home with a few simple switches from Legrand.

Two attractive solutions can be found in the radiant and Adorne Collections by Legrand. For a home with more traditional aesthetics, the radiant Collection offers a Night Light with Two Tamper-Resistant Outlets. It features five adjustable light levels and an optional louver for additional light-level control. For a more modern and design-savvy look, there's the one from the Adorne Collection. It provides a soft glow and with ambient light level sensors, so it's visible only in dark spaces.

A few simple switches around the house can help you have more control over your home's lights and electronics.

While you're improving your place, you may care to consider Adorne app-based lighting control options, designed to provide solutions that offer whole-house control with the touch of a button. Homeowners who have both Legrand smart lighting systems and Voice Control-enabled devices from Google or Amazon can now power and dim lights simply by saying phrases like "OK, Google, turn on the porch lights" and "Alexa, dim the living room to 50 percent" without needing to reach for a phone, tablet, or light switch.

**Time Is Money When It Comes To Car Maintenance**

(NAPSA)—Whether changing the oil, replacing the wiper blades or checking the tires, finding the time to perform simple preventative vehicle maintenance is money in the bank.

According to research conducted by automotive market research firm IMR Inc., one out of three consumers who put off routine vehicle maintenance do so because they cannot find a convenient time. In addition, millennials and those who own older vehicles are more likely to delay routine maintenance.

**Expert Advice**  
"There is an old adage that if you take care of your car, your car will take care of you," said Rich White, executive director of the nonprofit Car Care Council. "Making time to perform routine auto care not only ensures a safer, more dependable vehicle, but car owners can preserve the trade-in value and save money by addressing small issues before they become more complicated, expensive repairs."

**What You Should Do**  
The most common maintenance procedures to keep a car operating safely and reliably while maintaining its long-term value involve checking the oil, filters and fluids, the belts and hoses, brakes, tires and air-conditioning. An annual tune-up and wheel alignment are also good ideas.

**Where To Get Help**  
To make it easier for car owners to remember to include auto care in their

Investing a little time and effort now in keeping your car in top shape can save you a lot of trouble and money down the road.

busy schedules, the Car Care Council offers a free custom service schedule and e-mail reminder service. This simple-to-use online resource can be personalized to help make auto care more convenient and economical.

In addition, the council's popular "Car Care Guide" for motorists is available at no charge, electronically or by printed copy, in English and Spanish. The guide covers major services, component groups within the vehicle, service interval recommendations and much more.

The council is the source of information for the "Be Car Care Aware" consumer education campaign promoting the benefits of regular vehicle care, maintenance and repair to consumers.

# PUBLIC NOTICES

Always in your newspaper:  
Now in your inbox, too.

If nobody knows what's going on, nobody can do anything about it.

That's why we keep saying your local and state government should keep publishing their public notices in the newspaper.

Now you can stay informed AND keep those public notices in the newspaper.

Just go to [publicnoticeads.com/or](http://publicnoticeads.com/or), sign up for the free SmartSearch service, and get all of this paper's public notices delivered to you via email.
