**AN INTERESTING WAGER!** Bet your friends that you can take one from four and have five left. When they give up, take a sheet of paper and tear off one corner. Then, instead of four corners, you now have five corners ... proving that 1 from 4 can leave you with 5.

**LINK-UPS!** Here's a list of 12 one-syllable words that are divided into two columns. Turn them into six longer words by linking them together. To do this, draw a line from a word in the left column to a word in the right.
