## EXPLORE COAST, HELP SCIENTISTS DURING LOWEST TIDES OF YEAR

The Oregon Coast Aquarium is inviting the public to explore Oregon's coastal waters this summer while helping local scientists for the annual Marine Reserve Bioblitzes.

The aquarium and partners are hosting a series of "Bioblitzes" along the coast during the months of June and July in order to survey the plants and animals of the region.

A Bioblitz is an intensive survey of a defined area on a single day with the goal of identifying all the species to be found in that area at one time — it is a snapshot of biodiversity.

Bioblitzes are free, open to all ages and are a great way to explore Oregon's tidepools during the lowest tides of the year.

Participants can download the iNaturalist app to contribute their findings to the Bioblitz. This is a useful tool (for smartphones) which enables any observer of the natural world, of any skill level, to contribute information to a vast national database.

The first round of Bioblitzes was June 1-7 at multiple Marine Reserve locations, and the second round is in the first week of July.

For a complete list of dates, locations and times, visit [www.aquarium.org/bioblitz](http://www.aquarium.org/bioblitz).

The State of Oregon has five marine reserves: Cape Falcon, Cascade Head, Otter Rock, Cape Perpetua, and Redfish Rocks. These areas in our coastal waters are dedicated to conservation and scientific research, where all ocean development and removal of species is prohibited.

Oregon created the marine reserves to conserve marine habitats and biodiversity while serving as living laboratories to learn about Oregon's near-

shore ecosystems and the potential effects that protections can have over time.

In order to understand the effects of the reserves, key information is needed on the original species compositions of each area to establish a baseline i.e. what and and plant species are there and how abundant are they?

The Bioblitzes, along with dive surveys and SMURFing (Standard Monitoring Unites for the Recruitment of Fishes), serve as methods for collecting this key information.

## Special summer programs continue at Cape Perpetua

In addition to the camping, hiking, tidepooling, and picnicking, visitors to the Cape Perpetua Visitor Center can choose from an array of activities this summer.

Events kicked off June 1 and continue throughout the summer.

Ongoing events this summer at Cape Perpetua:

- Mondays through Sept. 2 — Walk with a Ranger. Begins at noon at the Visitor Center.

Join, retired Chief Park Ranger, Michael Noack, for an easy to moderate hike where he will be sharing information about the local flora and fauna.

Hikes will last 75-90 minutes.

- Wednesdays through Aug. 28 — Under the Sea

(10 a.m. to 3 p.m. at the Visitor Center).

Oregon doesn't stop at the beach. Take a deeper dive into the Cape Perpetua Marine Reserve by joining Tara DuBois, Communications Coordinator for the Cape Perpetua Collaborative, for interactive exhibits at the Visitor Center.

At 3 p.m., DuBois will lead a stroll on the Captain Cook's Trail to explore the rocky shoreline and marine reserve.

- Thursdays through Aug. 29 — Lunch with Dr. Jim Nechols, beginning at noon at the Visitor Center.

Dr. Jim Nechols, retired professor of Entomology from Kansas State University, will present "Alien Invaders: Invasive Plants of Siuslaw National For-

est" and "Self Defense 101 for Insects: Insect Defense Mechanisms."

- Saturdays through Aug. 31 — Ranger F.E.D Talks, beginning at noon at the Visitor Center.

Join Siuslaw National Forest Field Rangers for a fun and informative "Forest, Explore, Discover" Siuslaw National Forest presentation in the Cape Perpetua Visitor Center theater.

- Tuesdays, Wednesdays and Thursdays through Sept. 5 — Walk with a Ranger, beginning at noon at the Visitor Center.

Explore a variety of natural history topics on The Giant Spruce Trail, Discovery Loop or Captain Cook Trail on a guided hike lead by Siuslaw National Forest Field Rangers.

All events are free, but a Northwest Forest Pass, Oregon Coast Passport, federal recreation pass or \$5 day-use fee is required within the Cape Perpetua Scenic Area and at some trailheads and day use sites.

For more information on these events, contact the Cape Perpetua Visitor Center at 541-547-3289.

**Siuslaw News Garage Sale GUIDE**

Huge Sale!  
50 years accumulation!  
Sat.-Sun. 6/22-6/23  
10am-4pm

View photos at [CindyWobbeEstates.com](http://CindyWobbeEstates.com).

## Fishing from 1B

fishing will continue to be good through the summer and into the fall.

Siltcoos also gets stocked rainbow trout, check the stocking schedule for numbers and dates of stockings.

**TENMILE LAKES:**  
Trout, warmwater species, largemouth bass

Conditions should be prime for bass, crappie,

bluegill, and brown bull-head catfish angling at this time. Anglers also use small jigs or a worm on a hook fished near the bottom to catch yellow perch.

The Tenmile Lakes have been stocked with legal-size rainbow trout. Tenmile Lakes provide some nice holdover trout this time of year, and some can measure over 17-inches long. Try trolling slowly with a spinner tipped with a worm.

## The Genuine. The Original.
