Florence Police Department offers tips to help keep vehicles, valuables safe from thieves

The Florence Police Department has taken almost a dozen reports in less than three weeks of unlawful entry into a motor vehicle.

Thefts from a vehicle generally have one thing in common: personal belongings, such as purses, bags, clothing, laptops and other electronic devices are left in vehicles.

Keep in mind anything can be of value to a thief.

- Always roll up vehicle windows and lock all doors.

- Hide your personal belongings. If you leave property visible in your vehicle, your vehicle is automatic-

ly a target.

- Store items in your trunk before you arrive on-site; avoid storing items in your trunk after you park.

- Remember, a thief may be watching the area before committing crimes.

- Keep cell phone cords and other electronic accessories out of sight. Thieves are willing to break a window when they see a cord because there is a chance that a device will be in the vehicle.

- A thief may be able to detect the Bluetooth signal on electronic devices. Place your electronics in airplane mode or turn off the Blue-

tooth/Wi-Fi option, then power off your electronic devices.

Put away devices before you get to the parking lot.

These types of crimes occur at all hours, day and night.

By taking a few simple steps, you can make it harder to be a target and discourage individuals from committing crimes of opportunity.
