

"Christ's Thorn" plant

The Ziziphus spina-christi is an evergreen tree found in the valleys and lowlands of countries bordering the Mediterranean Sea along its southern coasts. Wood from this plant appears to have been in use during the times of the pharoahs, as well as parts of the plant used for medicine, and its fruits were used to make a type of bread which is still made in these lands today. Traditions say that these trees are sacred, and no harm from the spirit world will befall any who sleep beneath them.
