**COIN GAME!**

PLACE 15 coins (or buttons, nails, etc.) on a table. Two players now take turns removing one, two or three coins at a time. The player who is forced to remove the last coin from the table loses.

**SECRET STRATEGY:** When it's your turn, try to remove enough coins so that there are 13, nine or five coins left on the table. This will give you a sure win. Also, if you make a rule that the person who won the last game gets to start the next game, you will be unbeatable since you will always remove two coins, leaving 13 on the board, a winning number.
