## Impatiens

This family of plants is native to eastern Africa, from Kenya to Mozambique. It has hundreds of species, but only a few are widely grown, such as *walleriana*, *balsamina* and New Guinea hybrids. It is perennial in warmer climates, but treated as an annual where winters are cold. Its dazzling array of sizes, shapes and colors keep it popular.

### MEET ERNIE

Ernie is a sweet boy who's learning how much fun life can be. We believe he would enjoy a home with older kids and could live with a cat-savvy dog. Ernie seems to like being around other cats but needs a slow introduction since he came in as a stray tomcat. He does play rough, so a female or cat-friendly male sibling would be best. If you're interested in meeting Ernie, please fill out an application on our website.
