The Garden Bug

Spider lilies

Native to Japan, these perennials exhibit large, striking flowers on slender 2-foot stalks that appear in late summer and early fall. They love very rich and well-drained soil, with only a moderate watering schedule needed. They grow well in both full-sun and partly-shady garden areas, and will also tolerate being potted for use as a patio accent. Spider lilies are quite resistant to diseases and pests, and attract pollinators.

MEET SCARLETT

If there was a Mom of the Year award in the shelter, Scarlett would be the winner! This sweet young girl arrived as an expectant mother and did her best to raise all of the other kittens in the nursery until her were born. Scarlett took on some orphaned kittens and was a PURRfect mom to her own litter as well. Now that the kittens are weaned and adopted, Scarlett is ready for her PURRmanent home. She enjoys people and other cats, and is a talker. We can't wait to see who chooses this special girl for their family!
