

AMERICA RECYCLES DAY®
A KEEP AMERICA BEAUTIFUL® PROGRAM
NOVEMBER 15

Since 1997, November 15 has been recognized as America Recycles Day, which is the only nationally recognized day to celebrate recycling and buying recycled content products and packaging.

Environmental Protection Agency estimates that each person in the U.S. generates 3.4 pounds of waste a day. What can you do to make a difference? Throughout the day today, think about how you can reduce the amount of waste you generate. And, plan to recycle what you do generate. Encourage a friend to do the same.

Recycling makes a difference. You can to.

Commingle Recycling

Help Keep the MRFs in MOTION

Wishful recycling has consequences on Material Recovery Facilities

- Safety hazards: Employees manually removing contaminants ~
- Delayed production: Truckers queuing to deliver loads ~
- Wasted employee time: Waiting for jam clearing and sorting belts to operate ~
- Added costs: Landfill disposal fees passed on to you!

What can you do? Do not put these curbside:

- Tanglers: hoses, wires, electronics, chains
- Clothing (use donation programs)
- Plastic Bags (keep recycling loose in the bin)
