THE ASTORIAN

PUBLISHED TRI-WEEKLY,

MONITOR BUILDING, - - - ASTORIA, OREGON

D. C. IRELAND, Proprietor.

The Paper will be independent of politics in all its views, expressed or implied, and will be conducted with the aim in view to make it wholly and solely devoted to the best interests of this State. The Com-merce of Oregon, its Agricultural, Manu-facturing and Mechanical interests, the progress and prosperity of the people, will receive special attention. The ASTORIAN will recognize the Formers and Mechanics of Oregon as men of thought and judgment, and will respect their efforts to make their influence known and recognized in the marts of trade, in the counting rooms of business, and in the halls of legislation.

We shall neither make nor encourage a war upon, nor wage any conflicts with, any enterprises, associations or men engaged in legitimate pursuits where success depends upon the interest and continued earnestness of the people. While we shall endeavor to show the truthfulness of the old maxim, that "the laws favor the diligent," we shall strive to harmonize interests calculated to be of direct benefit to the State.

Astoria is the sea port of Oregon, has an excellent harbor, and vessels of the deepest draught enter in perfect safety at all seasons. Camparative statistics show less per cent, of losses on the Columbia River Bar for the past twenty years, than, at the entrance to any other port in the United States, and the facts may be easily produced to show the fallacies of such, wide discriminations by underwriters and in-surers, in favor of other ports, and against the port of Oregon. It was the Gold Min-ing excitements of 1849 that built up California so rapidly as to overshadow and outstrip this part of the northwest possessions, at a time when the first propositions for communication letween New York and Astoria were about to be inaugurated. The gold discovery of 1849 set Oregon back and made our sister State what she is. Now, things are upon a more equal footing, with lands and Agriculture for a basis of future operations—with the difference in favor of Oregon in her cheap lands and varied natural resources yet undeveloped. Temporarily there is a stringency in the money market, but business generally continues good, and as many vessels are employed in the carrying trade, if not more, than in past years of our prosperity. A few more acers planted, a few more fish and systems marketed, a few more tons of coal and iron mined, more home rescources deviloped and manufactories established, will improve the outlook very much.

The history of Astoria is full of interest from the arrivals of Captain Gray in the Summer of 1792 to the present time, all of which will receive due attention. The arrivals and departures of vessels at Astoria, and the business of the surrounding country, having no journal to correctly represent the interest, has of necessity been neglected, to the detriment of the entire State. With the view of supplying this want the undersigned has concluded to enter the newspaper world at this venerable old city, on the banks of one of the noblest rivers entering any ocean, and relying for my sup-port upon an appreciative people, among whom I am not as a stranger, having been connected with the press of the State for ten years, it is with the utmost confidence of success that I issue this brief outline of the purposes actuating me, and solicit your pat-lonage. D. C. IRELAND. louige.

Dr. Borzesu's Small-Pox Cure and Preven tive, now prepared and kept on hand at my office, corner first and Main streets, one door from First, is a sure cure or preventive for that disease. The history of this medicine can not better be explained by me than by inserting the following somewhat condensed letters. SAMUEL CORWIN, PROPRIETOR.

able to break out amoung us at any time, it is

well to be prepared for it at all times.

SAN FRANCISCO, JULY 2, 1872. My dear old friend, Samuel Corwin-I have no doubt but you will be much surprised on receiving this letter, but, perhaps, not more so, or more gratified, than I was to hear from you. The manner in which I heard from you, and learned of your whereabouts, is this: I happened to be looking over an Oregon newspaper and noticed your name, as Representative elect, from Tillamook county. The thrill of pleasure which I experienced on reading, is indiscribable. The many sets of kindness which I received at your hands long years ago have never been forgotten, netwithstanding our correspondence has been broken for 17 years. Well, Sam, I won't attempt to give you more than the outlines of what has franspired with me since we last corresponded. So many incidents of the past, in which you and I were connected, crowd upon my mind that I cannot think or write of myself. Does your mind ever revert to the past, when we first met-how you took me in as a partner, when those who ought to have been my best friends threw off on me-how we got snowed in and had to live on petatoes straight for six weeks-how good that grizzley meat tastedwhat a disgraceful retreat we made from our poor innocent Jack, when we thought we were besieged by a grizzley. Well, Sam, those events of 1852 frequently furnish subject matter for my thoughts, and, as I am writing to you, crowd upon my mind, but I will dismiss them for the present to give place to that which will, perhaps, be of greater interest to you.

I pocketed eleven thousand dollars out of the "Deep Claim" you gave me in Maraposa, and started for home in June, 1855. I invested four thousand dollars in real estate in this city, and left-it in care of McLane, our, old cabin mate. My property here has yielded me a handsome income, and quadrupled in value. I went into business in New York city, in which I was very successful-sold out two years ago, since which time I have been traveling through the European countries. You know I used to have a weakness for traveling; well, it has been gratified to my heart's conwell, it has been gratified to my heart's content. While in France I was taken with the small-pox. The lady of the inn told me that I was fortunate to take the disease at that place, as there was an old small-pox doctor near by who never failed to cure, no matter how bad the disease; and sure enough, I began to receiver within four hours after commencing to take the medicine, and in twenty-four hours I felt quite well. I was so much clated with the magical effects of the medicine that I was determined, if possible, to obtain the formula, in which I succeeded, by paying handsemely and promising not to divulge it in France.

and promising not to divulge it in France. and promising not to divulge it in France.

I see from Oregon papers that you have the disease among you. The enclosed package contains the formula and sufficient material for family use. I have cured all the cases for family use. I have cured all the cases that I have come in contract with, and find it an infallible cure and preventive. When you answer this, I will forward sufficient of the material to make you a fortune, as I have ample, and rest assured I reciprocate past favors.

I will close for the present and await anxiously your answer. Direct to San Francisco, as I will remain here about two months.

Yours etc., ISAAC RICHARDSON.

When I received this medicine, there being no small-pox in the State of Oregon, I sent packages to a number of places in California and other States, to be properly tested, although my own confidence in its virtue was completely established by the source from which I obtained it. The following letters were duly received from the parties to whom I sent test packages of the medicine:

Sagnature of Cal., Dec. 27, 1872.
Samuel Corwin, Nehalem, Oregon—Dear Sir: I have the pleasure of communicating to you the fact I had an opportunity at last of you the fact I had an opportunity at last of testing the efficiency of your preparation for the cure of small-pox. Mr. A. keyser, a friend of mine, was taken with the small-pox December 18 th. I learned the fact about six o'clock on the evening of the loth, and started immediately for the residence of Mr. K., sitnated about fourteen miles from here, towards Cache Creek, Yolo county. I got to K.'s place just twenty minutes before twelve o'clock, and commenced giving the medicine precisely at twelve o'clock. Continued to give the medicine every hour until twelve o'clock next evening, having given twenty-nine doses; and, without further aid. K. recovered, and is now as we'l as ever, without any visible signs of ever naving had the disease. All of us who were exposed, took of the medicine as a preventive, and I have no doubt, by so doing, were kept from gotting the disease.

Yours etc., JAMES HASBIN.

FERNDALE, Humboldt Co,Cal. Feb.1 1873 FERNDALE, Humboldt Co,Cal,Feb.1 1873,
Friend Corwin—Your small-pox cure proved
quite a God-send to this community lately. I
had the satisfaction of curing three of our
townsmen of the small-pox lately. Now, I
am out of medicine, and I want you to send
me about a thousand bottles, or send an agent
down here. You would do well to have an
agent in every town in California. I am getting up a statement, with the signature of the
parties knowing the facts, and will send it
soon. Accept our thanks, etc.,
C. E. CHURCH.

No person should be without this medicine, as the disease is now in various parts of the
