

progress and prosperity of the people, will receive special attention. The ASTORIAN will recognize the Farmers and Mechanics of Oregon as men of thought and judgment, and will respect their efforts to make their influence known and recognized in the marts of trade, in the counting rooms of business, and in the halls of legislation.

We shall neither make nor encourage a war upon, nor wage any conflicts with, any enterprises, associations or men engaged in legitimate pursuits where success depends upon the interest and continued earnestness of the people. While we shall endeavor to show the truthfulness of the old maxim, that " the laws favor the diligent," we shall strive to harmonize interests calculated to be of direct benefit to the State.

Astoria is the sea port of Oregon, has an excellent harbor, and vessels of the deepest draught enter in perfect safety at all seasons. Camparative statistics show less per cent. of losses on the Columbia River Bar for the past twenty years, than at the en-trance to any other port in the United States, and the facts may be easily pro-duced to show the fallacies of such wide discriminations by underwriters and insurers, in favor of other ports, and against the port of Oregon. It was the Gold Min-ing excitements of 1849 that built up California so rapidly as to overshadow and out-strip this part of the northwest possessions, at a time when the first propositions for communication between New York and Astoria were about to be inaugurated. The gold discovery of 1849 set Oregon back and made our sister State what she is. Now. things are upon a more equal footing, with lands and Agriculture for a basis of fature operations-with the difference in favor of Oregon in her cheap lands and va-ried natural resources yet undeveloped. Temporarily there is a stringency in the money market, but business generally continues good, and as many vessels are employed in the carrying trade, if not more, than in past years of our pro-perity. A few more acers planted, a few more fish and oysters marketed, a few more tons of coal and iron mined, more home rescources developed and manufactories established, will improve the outlook very much.

The history of Astoria is full of interest from the arrivals of Captain Gray in the Summer of 1792 to the present time, all of which will receive due attention. The arrivals and departures of vessels at Astoria, and the business of the surrounding country, having no journal to correctly repre-sent the interest, has of necessity been neglect.d, to the detriment of the entire State. With the view of supplying this want the undersigned has concluded to enter the newspaper world at this venerable old city, on the banks of one of the noblest rivers entering any ocean, and relying for my support upon an appreciative people, among whom I am not as a stranger, having been connected with the press of the State for ten years, it is with the utmost confidence of Dekum's New Building! success that I issue this brief outline of the purposes actuating me, and solicit your pat-ronage. When I received this medicine, there being no small-pox in the State of Oregon, I sent packages to a number of places in California and other States, to be properly tested, although my own confidence in its virtue was completely established by the source from which I obtained it. The following letters were duly received from the parties to whom I sent test packages of the medicine:

SACRAMENTO, Cal., Dec. 27, 1872. Samuel Corwin, Nehalem, Oregon-Dear Sir; I have the pleasure of communicating to you the fact I had an opportunity at last of testing the efficiency of your preparation for the cure of small-pox. Mr. A, Keyser, a friend of mine, was taken with the small-pox Dec-ember 18 th. I learned the fact about six o'clock on the evening of the 19th, and started immediately for the residence of Mr. K., sit-uated about fourteen miles from here, towards Cache Creek, Yolo county. I got to K.'s place just twenty minutes before twelve o'clock, and commenced giving the medicine precisely at twelve o'clock. Continued to give the medi-cine every hour until twelve o'clock next evetwelve o'clock. Continued to give the medi-cine every hour until twelve o'clock next eve-ning, having given twenty-nine doses; and, without further aid, K, recovered, and is now as well as ever, without any visible signs of ever having had the disease. All of us who were exposed, took of the medicine as a pre-ventive, and I have no doubt, by so doing, were kept from getting the disease. Yours etc., JAMES HASBIN.

FERNDALE, Humboldt Co.Cal.Feb.1 1873. Friend Corwin-Your small-pox cure proved quite a God-send to this community lately. 1 had the satisfaction of curing three of our townsmen of the small-pox lately. Now, 1 am out of medicipe, and 1 watery you to send me about a thousand bottles, or send an agont down here. You would do well to have an agent in every town in California. 1 am get-ting up a statement, with the signature of the parties knowing the facts, and will send it parties knowing the facts, and will send it soon. Accept our thanks, etc., C. E. CHURCH.

No person should be without this medicine, as the disease is now in various parts of the country, and may be among us any day. It is an old and true adage, that " An ounce of preventive is worth a pound of cure"-" Tis a wise man that carries his coat on a fair day." etc. SAMUEL CORWIN, Proprietor. Nehalem, Oregon.
