Come to the Fourtain.—One of the most attractive establishments in Portland is the drug and perfumery store of our old friend Samuel M. Smith, corner of Ash and First streets. Mr. Smith was for many years senior partner of the firm of Smith & Davis. And, besides being a thoroughly practical druggist and chemist is, within, as genial a gentleman as ever grasped a hand in friendship. His store is fitted up and stocked in a magnificent manner with everything usually found in a complete stock of drugs, ehemicals, perfumeries, etc. But the feature par excellence is the soda fountain, one of the famous Arctic patent, an immense affair, a monument reared in marble and silver to the health of the thirsty. It has deliveries, on opposite sides, and can accommodate a rush. It is stocked with Kissengen, Congress, Vichy, Seltzer and different kinds of syrups. The cooling apparartus is the most perfect in use, and the product of that fountain a draught that surpasses "the nectar of the gods."

To Investors.—The Northern Pacific Railroad Company has now built, equipped and put in operation, nearly 517 miles of its main line of road through an excellent country and along what is known as the Valley Route to the Pacific. The finished portions already enjoy a large and fast increasing traffic. The sections approaching completion connect the chain of Lakes with the navigation of the Upper Missouri and Columbia rivers with Puget Sound, secure at once a large and profitable business and entitle the Company to about 10,400,000 seres of excellent average land in fee simple.

profitable business and entitle the Company to about 10,400,000 acres of excellent average land in fee simple.

With these accomplished results, the Company offers, and is now rapidly selling, its First Morgage Bonds, for completing the construction and equipment of its road across the Continent. After careful investigation, we recommend these bonds as a well secured and unusually profitable investment. They have 30 years to run; principal and interest are payable in gold; the interest (seven and three-tenths per cent.) is equal now to about 5½ per cent. in currency. The coupon and registered bonds can be exchanged for each other, at the pleasure of the holder. Gold checks for the semi-annual interest on the registered bonds are mailed to the post office address of the owner.

These securities have the following elements of strength and safety: They are the obligation of a strong corporation; they are also a mortgage on the Road, its right of way, equipments and franchises, and a first lean on its net earnings. In addition to this usually sufficient security, there is pledged for the payment of the principal and interest a Grant of Land, averaging about 23,000 Acres per Mile for the entire length of the Road. At the average price per acre at which other Land Grants have thus far been sold, this real estate security will yield more than \$101,000 per mile—more than three times the possible issue of bonds.

The Company has already begun the process of redeeming and cancelling its first mort.

Sue of bonds.

The Company has already begun the process of redeeming and cancelling its first mortgage bonds, as they are now being received,
at 1.10 in payment and exchange for the Company's lands.
