To Investors.—The Northern Pacific Railroad Company has now built, equipped and put in operation, nearly 517 miles of its main line of road through an excellent country and along what is known as the Valley Route to the Pacific. The finished portions already onjoy a large and fast increasing traffic. The sections approaching completion connect the chain of Lakes with the navigation of the Upper Missouri and Columbia rivers with Puget Sound, secure at once a large and prolitable business and entitle the Company to about 10,400,000 neres of excellent average land is fee simple.

With these accomplished results, the Com-lany offers, and is now rapidly selling, its First Morgage Bonds, for completing the construction and equipment of its road across the Continent. After careful investigation, we recommend these bonds as a well secured and unusually profitable investment. They have 30 years to run; principal and interest are payable in gold; the interest (seven and three-tenths per cent.) is equal now to about \$14 per cent. in currency. The coupon and registered bonds can be exchanged for each other, at the pleasure of the holder. Gold checks for the semi-annual interest on the registered bonds are mailed to the post office registered bonds are mailed to the post office

These securities have the following elements of strength and safety: They are the obligation of a strong corporation; they are also a mortgage on the Road, its right of way, equipmortgage on the Road, its right of way, equipments and franchises, and a first lean on its net earnings. In addition to this usually sufficient security, there is pledged for the payment of the principal and interest a Grast of Land, averaging about 23,000 Acres per Mile for the entire length of the Road. At the average price per acre at which other Land Grants have thus fur been sold, this real estate security will yield more than \$161,000 per mile—more than three times the possible issue of bonds.
