from Skiyanon. To Investors, The Northern Pacific

Railroad Company has now built, equipped and put in operation, nearly 517 miles of its main line of road through an excellent coun- L W POOLE try and along what is known as the Valley Route to the Pacific. The finished portions already enjoy a large and fast increasing traffic. The sections approaching completion connect the chain of Lakes with the navigation of the Upper Missouri and Columbia rivers with Puget Sound, secure at once a large and profitable business and entitle the Company to about 19,400,000 acres of excellent average With these accomplished results, the Com-

pany offers, and is now rapidly selling, its First Morgage Bonds, for completing the construction and equipment of its road across the Continent. After careful investigation, we recommend these bonds as a well secured and unusually profitable investment. They have 30 years to run; principal and interest. have 30 years to run; principal and interest are payable in gold; the interest (seven and three-tenths per cent.) is equal now to about three-tenths per cent.) is equal now to about 5% per cent. in currency. The coupon and registered bonds can be exchanged for each other, at the pleasure of the holder. Gold checks for the semi-annual interest on the registered bonds are mailed to the post office address of the agency.

address of the owner.

These securities have the following elements of strength and safety: They are the obligation of a strong corporation; they are also a mortgage on the Road, its right of way, equipments and franchises and a first leave on its mortgage on the Road, its right of way, equipments and franchises, and a first lean on its net carnings. In addition to this usually sufficient scenity, there is pledged for the payment of the principal and interest a Graxt of Land, averaging about 23,000 Acres per Mile for the entire length of the Road. At the average price per acre at which other Land Grants have thus far been sold, this real estate security will yield more than \$131,000 per mile—more than three times the possible issue of bonds.

sue of bonds. The Company has already begun the pro-cess of redeeming and cancelling its first mort-gage bonds, as they are now being received, at 1.10 in payment and exchange for the Com-nany's lands. JAY COOKE & CO., Philadelphia, New York & Washington,

Come to the Fountain.—One of the most attractive establishments in Fortland is the drug and perfamery store of our old friend Samuel M. Smith, corner of Ash and First streets. Mr. Smith was for many years senior partner of the firm of Smith & Pavis. And, busides being a thoroughly practical druggist and chemist is, withal, as genial a gentleman as ever grasped a hand in friendship. His store is fitted up and stocked in a magnificent minmer with everything usually found in a complete stock of drugs, chemicals, perfameries, etc. But the feature par excellence is the soda fountain, one of the famous Arctic patent, an immense affair, a monument reared in marble and silver to the health of the thirsty. It has deliveries, on opposite sides. COME TO THE FOUNTAIN .- One of the most atthirsty. It has deliver to the health of the thirsty. It has deliveries, on opposite sides, and can accommodate a rush. It is stocked with kissengen, Congress, Vichy, Seltzer and different kinds of syraps. The cooling apparairtus is the most perfect in use, and the product of that fountain a draught that surpasses "the nectar of the gods."
