ASTORIA, Nov. 29, 1873

FOR THE LADIES.

The most potent kind of witch-hazel is the hazel eye of a pretty woman.

Young ladies use powder, perhaps, because they think it will make them go off.

A Michigan man aids woman's rights by turning out 18,000 broom handles a month.

Grace Greenwood and four other ladies were present at the dedication of the signal station on Pike's Peak.

A Connecticut girl has gone insane from being kissed in the dark. It don't affect Web-foot girls in that way.

A bachelor of 37 years has been fined ten dollars, in Canada, for kissing a neighbor's wife and then telling of it.

Victoria Woodhull is growing old and gray so fast that Theodore Tilton passes her without a nod of recognition.

A taffeta ribbon from one to two inches wide and two yards long, crossed in front is the style with young ladies.

Nature when she makes a beautiful head, is often so absorbed with admiration of her own work that she forgets the brains.

Anna Dickinson's new lecture she speaks of as "For Your own sake." As she charges \$200 for it, it looks as if it was for her own sake.

A Cincinnati man bought his wife 2,000 papers of pins the other day. He said he'd stop her jawing about pins if it took his house and lot.

Many an honest man practices on himself an amount of deceit sufficient, if practiced on others, in a different way, to send him to the state prison.

"There!" said Jones, as he wrathfully pushed away the pie which his landlady had just served him, "that stuff isn't fit for a pig to eat, and I ain't going to eat it."

Dr. Dio Lewis is authority for the statement that diet of beans is better for the complexion than all the powders and creams ever manufactured. Economists who want their wives and daughters to look handsome this winter will see the value of a bean diet.

A young lady in Fon du Lac, while out walking with her lover, was attacked by a savage dog, who seized her by the breast and tore it from her body. The lover fainted with horror at the sight, but the young lady, much mortified, went for the dog with a picket, remarking "that ere rubber bosom cost a dollar and a half, and wan't made for a dog to chaw up."

The thousandth anniversary of the settlement of Iceland is to be formally celebrated next year. It was Ingolf, saith the chronicle, a banished subject of the Norwegian King Harold Harfagar, who went to Iceland with his foster-brother Leit and built the first dwellings on the island. Greenland was discovered from this island, and thence went the Northmen, who in the year 1006 stepped upon the coast of Massachusetts.

The highest inhabited spot in the world is the Buddhist cloister of Hanle (Thibet), where twenty priests live, at the enormous height of 16,500 feet. There are other cloisters at a nearly equal height, which are inhabited nearly all the year round, in the province of Guari Khorsum, upon the banks of Monsaraour and Bakous.

The fact that nature is full of compensations is beautifully illustrated by a recent bit of scientific information, which announces that the house-fly is tormented by parasites, of which it cannot get rid, and that it suffers terrible agony from their tickling.

New York, with only 1,000,000 of people, has more crime committed within its borders than London, with 3,000,000 of people, while against less than 73,000 criminal arrests in London each year there are more than 75,000 in New York city.

The plan for the construction of the railway connecting with the Ashantee expedition has been given up as impracticable and the shipment of rails from England is countermanded.
