ASTORIA, OREGON:

FRIDAY.....MAY 5, 1876.

A VAST UNDERTAKING.

The New Panama Transit Company and its aims.

From the Philadelphia North American. The Panama Transit Company, the formation of which we recently announced, is proving to be a substantial reality, and threatens to inaugurate a contest upon two oceans for the command of a world-wide traffic.

But the consequence was the organization of a new corporation called the Panama Transit Company, against which no injunction can work, and to this company has been transferred all the business of the companies connecting with the Panama Railroad at Aspinwall, as well as the local business of the Isthmus, both hitherto monopolized by the Pacific Mail steamers, to which they will now be lost.

No statement is made as to how these lines are to be run. The European lines may be run either direct to and from Aspinwall or from New York, and the Asiatic, Australia and Honolulu lines either direct from Panama or via San Francisco.

The Australian steamship business is in the hands of the Pacific Mail Company, under a subsidy from the Australian government, and also the lines to Japan, China, Oregon, British Columbia and Alaska.

company is to build within a year five new steamers, of 4,000 tons burthen each, and when they are ready the trips will be weekly. Thomas Clyde, of Philadelphia, is President of the company, and William P. Clyde, general manager.

The Chinese Abomination in British Columbia.

Dom Pedro was stopped on the route eastward at Promontory point, C.P.R., by a mad bull that had wrecked a freight train which blockad up the road.

The burning of Chinatown, at Antioch California, on Monday last, and the driving out of every last Chinese inhabitant, was based upon the fact several boys had visited a Chinese house of prostitution in the den-row, and were in consequence under medical treatment.

The authorities at San Francisco have at last lost faith in promises of the Chinese companies, to care for their paupers, and will turn the heathens out of the pest-house to-day, except where the disease consists of leprosy.

In the Victoria house, on the 2d a resolution was passed considering the expediency of taking steps for preventing the country from being flooded with Chinese. It was thought that the question must soon assume a serious form in British Columbia.

An eminent French physician thinks that the decrease of dyspepsia and bilious affections in Paris is owing to the increased consumption of apples, which fruit, he maintains, is admirably prophylactic and tonic, as well as a very nourishing and easily digested article of food.
