-The favn is loading at Booth's cannery.

--When will the road leading to the cemetery grounds be made passable?

-Several citizens have just got new tanks. Water is not good until it tastes of the tanks, then it may be preserved and put down.

-The Caller Ou will be ready to come down the river to-morrow. The Portland will be ready also, the last of this week. This will leave only the barkentine Jane A. Falkinburg in the river above Astoria.

-The bark California left Wilmington side by side with the Rival. The latter arrived at Knappton May 27, and the former arrived at Victoria May 31st, four days later.

most affable conductors that ever collected a fare, is sojourning temporarily at the Occieent, in this city. He brought with him a son who is in bad health, and will stop for a time at Unity in the hope of receiving benefits from change of climate.

-The times are improving rapidly. That shower of mutton in Kentucky has been followed by a shower of eggs in New York State, and a shower of oysters and fish chowder in Wisconsin. And the other night a shower of shavkindling wood occurred in a back yard up town.

-It turns out that only a small fraction of Ben Holladay's property at Ophir farm was sold, but it took three columns and a half and ten lines in trashy newspapers to tell about it. Three columns to the abuse of old Ben, half a column in abuse of his family, and ten lines to say that the sale amounted to about \$3,000, "of the most common articles." Ophir farm consists of about 1,000 acres of the best land in New York. With inprovements valued at no less than \$3,-000,000. Poor (!) Ben Holladay! in-

spreading. The past week a disciple of Heister Clymer attached himself to certain members of the Astoria City Council, and demanded that there be an investigation into the affairs of City Recorder. He insisted that there were iniquities screened behind the desk of his Hon. Judge Taylor, that would cause a mantle of shame to rise upon the face of every honest Astorian. Remembering the words of Alexander Smith;

Behold, the ocean's inmost heart is pure, Though the salt fringe that daily licks the shore

patiently awaited developments, but the accuser got drunk, and is new in jail, which brings the investigation to an abrust terminaFourth of July.

EDITOR ASTORIAN:

The coming Fourth will be generally observed throughout the country, and Astoria should not be behind hand. We can have a grand good time in the grove, and have some one who is well acquainted with the early history of the town of Astoria, write a history commencing back to the earliest settlement up to the present time, and read it to the people. It would not only be interesting to the new comers, but the old inhabitants, would take great pleasure in hearing of the "old times gone by." Let our citizens take hold of this matter, push it along and make it a success.

CUMTUX.

The School Exhibition.

Forty-seven dollars and thrty-five cents were taken in at the door last Saturday evening by the School Exhibition. The expenses were:

Leaving a balance of twenty dollars and thirty-five cents, which will be expended in getting up a report for the Public School.

W. L. WORTHINGTON.

-Maj. Martin V. Brown has much to say in his June 6th Democrat about the next World's fair. Better think it over carefully in this world. He voted and then immediately started overland for the Centennial.

-A correspondent of the Ligoneer (Ind.), Banner says "it is probable -G. M. Stroud, Esq., one of the that sixteen out of twenty of all the fish canneries on the Columbia river will be sold out at Sheriff sale this fall on executions." Rather a bad photograph of Oregon, that; to send so far away. We are ignorant of any causes likely to produce such result, unless it be, "scarcity of fish." Sic eunt fata hominum.

-Two gentlemen are stopping at the Occident, Messrs. Boyer and Covette, on their way to Europe, from the far interior. One of these gentlemen, Mr. C., was in Astoria ing cups, boot jacks, bars of soap, and more than a quarter of a century ago. He finds quite a different looking place to-day, from the Astoria of 1850. He has met with a few whom he knew here then, but far the greatest number of those composing the inhabitants of Astoria in that day have scattered, many have gone to their final rest.

-Some wild bets are being made to-day at Astoria on Tillamook county. We have no news from there further than that reported in another column. Last year at the special election the county gave Warren 35 majority. The vote was 132. How the majorities are to be had on which bets are made to-day does not clearly cross the threshold of our somewhat mysti--The contagion of investigation is fied comprehension. Some bets are made on eighty for Wilson, some for seventy, and so on. Wilson has seventeen majority in Clatsop-to get eighty majority in the district, Wilson must have sixty-three majority in Tillamook. Taking the vote of last year as a basis, a change must have come o'er their dreams in the past seven months, to make a lifference of ninety-eight voters in the aggregate, with only 132 in the county October 25th,

Don Cameron Secretary at Last.

Anna Dickinson's "Crown of Thorns,"

Cincinnati Jealous About Anna.

Blain and His Crackers.

Mullett with One House Only.

Kind Old Uncle Samuel,

How he Cares for the Squaws.

-Members who were positive that Don Cameron would not accept the War Portfolio, have changed their opinion last Thursday.

-Perkins, of the Cincinnati Times, barbarously invites Anna Dickinson to sit down on her "Crown of Thorns."

-Blaine keeps crackers in his desk, and after one of his volcanic speeches he tosses them down his throat as though they were wafers.

-Mullet, the famous ex-supervising architect of the Treasury, ownsbut one house in Washington. His friends call him a poor man.

-Lee and Dame the Mountain Meadow murderers, have been admitted to bail—the former in \$20,000 and the latter in \$15,000. And so endeth the farce.

-A strong effort is being made by the Momons to clean the Gentiles out of Potato Valley. George Q. Canton is also trying to legislate the Indians out of the Unitah Reserva-

-The amount of treasure stolen from Wells Fargo & Co. at the stage robbery near Boise City on November 10, 1875, was \$7,069 19. Of this amount about \$4,000 has been recovered since the capture of the Owyhee robbers.

-Our Government is kind to the Indians. While all the young Sioux warriors have gone to aid Sitting Bull in his fight with the troops, they have left their old men and women and children to be cared for, at the Agencies.

-McKee has turned his property into Government bonds, and the Government will have nothing that it can seize when it comes to bring the civil suits against him. Other Ringites will probably make the same disposition of their ill-gotten gains.

-The accounts in the papers throughout the country shows that Decoration Day was observed more generally than ever before, and the day is growing in popularity as a common holiday.

-June 5th, Story of the Chicago Times commenced the publication of a three-cent daily Evening Telegraph from the Times office; independent politically and in every other way 2 in size a seven column folio.

-It is reported that orders from military headquarters have been received at the various posts in Southern Arizona, which will probably result in the concentration of troops at convenient points, to be prepared to effectually suppress any resistance of the Chirichua Indians to their transfer to the San Carlos.

-A private letter from Badollet & Co's factory, dated June 7th, says: We have reason to believe that Ed. Williams and Johnson, boat puller, two of our fishermen have been lost, not having been seen or heard of since Sunday evening, of which you will please make note in your paper.

-It has been asserted that more money was being expended than recovered by the government in Mr. Bristow's prosecutions against revenue frauds. This is stated to be a mistake. The outlay thus far has been only about \$25,000, while it is asserted on departmental authority, that the amount secured from seizures, assessments, fines and forfeitures, aggregates about \$3,140,000, of which \$600,000 in cash has already found its way to the Treasury.

-News was received from Nehalem precinct this morning, Tillamook county, to the effect that the vote stood there two to one for Parker, as Representative. We may be able to get reports from the county to-night, via Portland, as the route across the divide to Yamhill county is more accessible than the route to Astoria; if we do not, there will certainly be something have to-morrow that will enable people to form conclusions as to the general result of the vote for Joint Representative.

-The French people were in earnest when they resolved to construct a colossal bronze statue of Liberty, to be erected in New York Harbor, work has been commenced on the statue near Paris. An idea may be formed of the magnitude of its dimensions when it is stated that the shoulders are over forty feet broad, and the head twenty-three feet high, from chin to crown. It is also said that a man can easily conceal himself in some of the folds of the drapery. The statue, beides being commemorative of the good will between France and the United States, is to serve as a light house. New York is expected to furnish the pedestal, but has as yet done nothing towards its erection.
