Read J. STRAUSS' new "ad."

Who is Henry Olsen, and what is his present address?

Everybody is rushing to J. STRAUSS' new grocery store.

Mr. Stickle passed through Astoria to attend the Pacific county Commissioners' Court on the 4th. Mr. John Woods, who was badly used up by the boiler explosion at South Bend, is expected to be able to take his seat as commissioner.

Astoria is ahead of all other cities in the matter of police. Yesterday chief Ross took the valley thief Geo. McDarrels into custody in Kalama, and returned him to Portland. Time was too short to get a requisition from Gov. Ferry, but our chief did not need one.

Capt. Merriman, U. S. N., Inspector of the 13th Light-house district, informs us that it would be impossible for the Astoria Fire Department to secure that fog bell at Fort Canby. It is probable that the bell will be removed, but it will be relocated at some other point in the district. Capt. Merriman has a bell however, which he will loan to the Chief Engineer of this department, on application.

The Good Templars assembled in full force Tuesday evening to assist in the initiation of several new converts, after which the following officers were installed for the term ending January 31, 1878: W. C. T., Edward D. Curtis; W. V. T., F. E. Warren; W. S. N. D., Raymond; W. T. W. M., McCormick; W. C. B. R. Freeland; W. M., Will McGregor; W. D. M., Clara C. Munson; W. I. G., Clara B. Adams; W. O. G., H. F. Chance. Trustees elected for the ensuing year: J. E. Bozarth, A. E. Withers, and B. R. Freeland.

Messrs. A. Van Dusen and I. W. Case were last evening appointed by the council as trustees to dispose of the city bonds of Astoria for the purpose of raising funds to pay Messrs. Bain & Ferguson for the construction of the new city hall, engine house, and jail building. These trustees are not expected to work for nothing, and a vote will be taken upon the proposition generously tendered by councilman Brown, to allow Messrs. Van Dusen and Case 20 per cent of the salaries of the mayor and councilmen, as compensation for their trouble as trustees.

A very large stock of can goods, such as table and pie fruit, jelly, jam, honey, tomatoes, corn, beans, sugar peas, oysters, corn beef, condensed milk, etc., at prices to suit the times at J. STRAUSS'.

The longshoremen are on a strike in Portland.

J. STRAUSS has just received a large lot of Alden dried apples, pears, plums, blackberries, raspberries and pitless cherries, which he will sell very low, to make room for more which will arrive on the steamer Chester.

Wilton's dramatic troupe are soon to open at Astoria for the winter.

For 20 days only, I will sell crockery, lamps, glassware, table and pocket cutlery at San Francisco wholesale prices, in order to make room for one of the largest and best selected stocks of the same kind of goods now on the way from New York, for J. STRAUSS, South side of Chemamunus street, Astoria, Oregon.

The Gay Season.

The key note of the gay season was struck at Astoria when Cornart gave his opening party at Liberty hall, Monday evening. The advertisement of Rescue engine company No. 2, for a fireman's grand dress ball at Liberty hall on the 29th, appears in another column to-day. This the boys propose to make one of the most *recherche* affairs that has ever been given in the city. All prominent citizens are interested, and the fair sex make this the chief topic of their conversations. "What shall we wear," concerns them immensely at present. No doubt they will appear in full force, brilliantly arrayed and capable of withstanding the critical judgment of a special reporter we have engaged for the occasion. Thanksgiving comes but once a year and we presume all will make the most of it. Now that the social entertainments are well under way, we trust they will not falter for want of an appreciative public. "Keep the balls a rolling," gentlemen.

Devlin & Co. shipped 500 cases of beef last evening for the outgoing steamer.

Mr. Stickle passed through Astoria to attend the Pacific county Commissioners' Court on the 4th. Mr. John Woods, who was badly used up by the boiler explosion at South Bend, is expected to be able to take his seat as commissioner.

The English mind is still interested on the subject of Polar discovery. The failure of Captain Nares to find the open Polar sea is not considered conclusive as against the existence of such a body of water. Sir Allen Young is among the number of unconvinced, and has announced his intention to fit out the steamer Pandora for another northern expedition. There will not be much faith in his ability to penetrate to the pole in the face of so many failures, unless he adopts the Howgate plan—which he does not seem to propose—of establishing a provision depot on the land as far north as he can get one season, so as to be ready for the sledge journey on the earliest opening of the next spring. The sequel will show, however what he can do.

Common Council Proceedings.

The council were all present at the meeting on Tuesday evening.

Mr. Hope B. Ferguson acted as Clerk *pro tem.*, performing the work in a very satisfactory manner.

Petition of the Police force was referred with instructions, to health and police.

Petition of the sexton of the cemetery was referred to the committee on ways and means.

The ways and means committee reported matters concerning the taxes of Warren estate back, to Mr. Chas. Stevens.

The same committee were granted further time to report an ordinance concerning payment for property, etc., lost by fire June 2d.

Committee on health and police made report concerning bonds of the city, which was referred back for final report to-morrow evening.

Ways and means committee were allowed further time to report on street lamps petitioned for.

The committee on streets and public ways reported with reference to work on Jefferson street sewer, etc., accepting the same, and report was adopted.

The same committee reported on hatches for the use of fire department, placed in certain crossings, which report was adopted.

The committee on wharves and water frontage reported on petition of Welch estate for wharfing privileges, submitting an ordinance which was read the first time in regular order, and laid over as unfinished business.

Reports of various city officers were read and placed on file.

The following report of the city engineer with accompanying paper marked A, was read and referred to the committee on fire and water:

OFFICE OF CHIEF ENGINEER,
ASTORIA, OGN., Nov. 5, 1877.
To the Honorable Mayor and Common Council of the City of Astoria

GENTLEMEN:

In accordance with recommendation of your committee on fire and water, I hand you herewith a proposition from Messrs. Arndt and Ferchen to construct for the Astoria Fire Department a hook and ladder truck and apparatus. It is the only proposition I have received and from the best information I can get will answer our city all that will be required in that line for many years. The price, \$900.00, in comparison to those furnished in the east, I think less; owing to the plain style of finish they are compelled to use here. The truck, ladders and everything else that can be, will be manufactured here.

And I would respectfully recommend the acceptance of the proposition.

I would also report that at a trial of Astoria engine company No. 1, after having it repaired under the supervision of Mr. F. Ferrell, I find that the engine works well and is now ready for duty. During the trial one length of the hose purchased from Mr. J. Buchtel bursted.

I would also recommend that some definite action be taken in reference to the custody of the Astoria engine No. 1. The company of that name not claiming the engine as I have been informed by the foreman. Still I do not, under the circumstances, feel authorized to employ any one to take care of it. And I hope the company will conclude to accept and run the engine as she is now capable of doing good service.

Rev. P. A. Hyland has given me his consent to use the bell of the Episcopal church as an alarm bell in case of fire, until the city can procure one, and I will have ropes put up during the week so that it can be rung in proper alarm style. Respectfully submitted,

J. H. D. GRAY, Chief Eng., A. F. D.

To the Chief Engineer, Astoria Fire Department:

DEAR SIR:—We will furnish for the Astoria Fire Department 1 Hook and Ladder truck 22 feet long on the pattern and style of the truck of the Corvallis Fire Department, with a great many improvements.

1 extension ladder	45 feet long
1 "	" "
2 "	" "
1 Roof "	" "
1 "	" "

1 large grapple hook with chain; 6 small grapple hooks; 1 pole for grapple hook; 4 fire axes; 2 crow bars; 2 Babcock fire extinguishers; 200 feet of rope, one inch; 6 water buckets, leather or rubber; 2 lanterns; 1 gong; 6 torches.

All articles mentioned above will be made of the best and most suitable material; and we will charge for said apparatus \$900. We would like two hundred dollars cash when material for said apparatus is bought, three hundred dollars when the same is delivered, and balance in city scrip payable March 1st, 1878. Very respectfully yours,

AN ordinance to amend ordinance No. 233, was read second time and referred.

Warrants were ordered in payment of claims as follows:

Trenchard & Upshur	\$ 53 75
Witness fees to G. W. Wood, D. H. Welch, S. Kinsey, Jno. W. Welch in case of Sands	6 80
Morris & Chappel	337 00

F. J. Taylor	34 95
Geo. Fazel	1 50

Claims against the city were referred as follows:

M. Dillon	\$40 00
Morris & Chappel	472 00
F. J. Taylor	51 00

The two first bills were ordered paid last evening, also bills for construction of crossing to connect Olney with Squemoqua street.—Rer.

Mr. Trullinger submitted a proposition for creating three wards of the city, with a representation of nine councilmen, which was duly considered and referred to committee of the whole.

Upon motion, the chief engineer was instructed to tender the hand fire engine to No. 1.

On motion the board adjourned.

Disturbers of the Peace.

The Comet, the recognized organ of the California branch of the national labor union, publishes the following rebuke to the agitators who are seeking to incite the workmen to acts of violence:

The street corners in the most densely populated parts of the city have been resonant nightly, for weeks past, with the blatant bosh of a band of the most shallow-pated demagogues that ever disgraced an intelligent community. Communism itself, with all its attendant horrors, is innocuous, when compared with the designs of these demagogues, as explained by themselves—the communist aims to level the inequalities existing between the rich and the poor. These demagogues appeal to the worst passions of the worst classes, to incite them to disgrace American civilization by making our streets flow with the blood of the Chinese, whom our government stands pledged to protect.

The wickedness of these instigators to murder and incendiarism would not be so mischievous, were it not that they profess to represent the working classes, and thus bring the odium of their infamy on those who are the staunchest upholders of law and order. The real workmen of San Francisco—the men whose well trained minds, brawny arms and calloused hands have made our city a marvel of rapid development—can have no sympathy with those who would destroy and disgrace the beautiful works of their hands, American freemen, raised and nurtured on the soil consecrated to Liberty, whose hearts overflow with kindness and pity toward those less fortunate, can have no feeling in common with those who, themselves born on a foreign soil, would disgrace our national institutions by shedding the blood of another race of foreigners.

The Chinese in our midst are a curse to our country, but God forbid that it should ever be recorded that the working-classes of America had degenerated into assassins and incendiaries, to correct an evil which they have the power to remedy by lawful means.

The blatant demagogues to whom we allude do not represent the working-classes. They are mere adventurers, having nothing to lose and much to gain by a raid on the Chinese quarter. It is the duty of the city and state authorities to preserve the peace of the community by silencing such wretches. If commitment in jail is what they desire, to make of themselves martyrs, by all means place them there. The abuse of the liberty of speech most unquestionably disturbs the public peace and brings them within the power of the law.
