Cemetery Notice. The undersigned Sexton of the Astoria Cemetery, in view of the fact that the cemetery grounds are now permanently located, wishes all persons owning lots in the grounds to report the number and block to him; also, all persons who have buried friends in the grounds at any time, are requested to address him through the Post-office, or call upon him at his office, and furnish him with a list, embracing the name of deceased, age, when buried, the lot or block upon which the burial was made, and such other information as will enable him to bring order out of chaos.

NOTICE TO SHIP MASTERS. The undersigned respectfully desires to inform Masters of vessels entering the port of Astoria that there actually exist such as real live stevedores right here at Astoria, without their being obliged to travel a hundred miles up the river to find one, and in the end be compelled to take the most particular pointed out to them by the Portland ring whether agreeable to the Captain or not, take him he must, if remarked, they were compelled to take the man pointed out to them and I repeat it; for, the shipmasters once in the sanctum of the Portland ring has no choice but patiently to submit to the one man concern.

Under the present system of employing stevedores at Portland the Master of a ship is completely at the mercy of the consignee agent or charter-party, who makes it their business to point out their man Jack, and the Captain is of necessity compelled to accept the conditions laid out by them, the stevedores care being taken and tender solicitude exhibited towards the Captain, to order to guard and protect him from all danger of approach or contact with outside parties, for fear of opposition, as from an epidemic, he is never for a moment to be seen by the toters and outside-holders of the ring, from the moment he sets foot on terra firma, until he's got his clearance in his pocket and on his way out.
