

The Daily Astorian.

Vol. IX.

Astoria, Oregon, Wednesday Morning, June 4, 1879.

No. 30.

TELEGRAPHIC.

EASTERN STATES.

The Recent Storm.

IRVING, Kansas, June 1.—Thirty deaths here are certain, and 53 people badly injured by the recent cyclone. People want money to get necessities which are at hand. From 50 to 60 families at Frankfort, Kansas, are houseless and destitute of clothing, farming implements and provisions. The citizens of that place donated \$700. More aid is needed.

SABETHA, June 2.—Seventy-five to 100 persons here are destitute of everything. In the vicinity of Beattie, bedding and clothing is in great demand.

The Manhattan Bank Robbery.

NEW YORK, June 2.—The whole story of the Manhattan savings bank burglary, has at last come out through the confession of one of the burglars. Saturday night Capt. Byrnes and his detectives arrested Henry Glenn, Patrick Sleggin and Wm. Kelly on a charge of being implicated in the robbery, whereby money and securities worth nearly \$3,000,000 were stolen on the night of the 27th of October, 1878. One of them has confessed the whole plot to Capt. Byrnes. The robbery was planned more than three years ago. A burglar known as Little Tracy first concocted the scheme and organized a band to rob the bank.

FOREIGN NEWS.

Earthquake at Bermuda.

NEW YORK, June 2.—A heavy shock of earthquake was felt in Bermuda May 28th. No loss of life.

PACIFIC COAST NEWS.

A Loathsome Freight.

SAN FRANCISCO, June 2.—The steamer China sailed to-day for Hongkong via Yokohama. Among her passengers were 17 Chinese lepers who have been inmates of the county pest house for several months, now shipped to China by order of the supervisors.

Home Education.

San Francisco Call.

In the Rev. Mrs. Bowles' sermon on "Women," Sunday night, she is reported as saying that it is a good sign that schools were being established to teach cookery, sewing, dressmaking and other homelike duties. While it is perhaps better that homelike duties should be taught at school than not at all, there are very grave objections to the general plan of substituting school training for home training in matters belonging especially to homes. The lady also said that the greatest and most prosperous state was that which had the greatest number of small homes in it. But what better place to teach girls how to make a home can be imagined than home itself? The attractiveness of a home does not depend entirely upon proficiency in the art of cookery and sewing, but is an outgrowth of home education which cannot so well be included elsewhere. Any sensible young man would take a wife from a well-ordered home in preference to taking one from a boarding school, though instruction may be given in cooking, sewing and home duties at the latter institution. The element in which our domestic and social life is most deficient is the attachments for homes. To many of our young people home is a place where they stay when no other place offers itself. Evenings at home are regarded as inexpressibly dull by both young men and young maidens. The remedy for this evil will certainly not be found in lessening the number of duties which are taught at home, and thereby sundering the few remaining ties which attach young men to their homes.

Dredging the Tiber.

A scheme is on foot to collect all the articles of value which the bed of the Tiber is supposed to contain. The golden candle-sticks taken from the temple at Jerusalem and the gold and silver ornaments which once decorated the palaces of Roman Emperors are imagined to lie beneath the Tiber's yellow mud. By means of drags it is thought all this buried wealth may be recovered and restored to form a natural museum of extraordinary value. A committee of distinguished archaeologists has been appointed to consider the best means of fishing up the legendary statues, coins and other articles which for centuries have been covered by the sands of time.

Chinese Laborers.

Evening Telegram.

The common council of Portland are meriting the thanks of the laboring men of the city, for the energy and watchfulness which they are displaying in the effort to enforce the law to prohibit the employment of Chinese upon public works. Cunning contractors from motives of self-interest are constantly seeking to evade the law, but so far the council has been able to thwart the efforts to work any considerable number of Chinamen upon the streets.

—Boat sponges, wholesale and retail at Dements drug store, Astoria. Five thousand just received.

—Rev. E. N. Condit who is now in the east, will return to Oregon and take charge of the Albany Collegiate institute.

—Persons wishing to prepare for fishing on the Sound, or for small fish will find a quantity of suitable twine at J. H. D. Gray's. It is just the thing for trout and herring nets.

—We are reminded of the fact that perhaps the lady friends of Councilman Kune might be interested in his whereabouts, as well as the boys. They have been very kind and attentive during his illness, and we would not omit to let one of them know that he is nicely fixed at the Occident now.

—Concerning some of the advantages to be gained by flooding the Colorado desert, the New York Herald says: "There are some glorious advantages, aside from commercial considerations, to be gained by the flooding of the Colorado desert, which Gov. Fremont proposes for Arizona. Some millions of rattlesnakes would be put where they would do the most good; a thousand or two very bad Indians and Mexicans might do the world an estimable service by being drowned unawares, and the authors of far west literature for boys would lose so much of their favorite territory that they might be discouraged into silence."
