The Daily Astorian.

ASTORIA, OREGON:

D. C. IRELAND.

THURSDAYJUNE 12, 1879.

Bar Fishing.

The sorry experiences of fishing this year, although it has cost many lives and the loss of much property in boats and nets, has demonstrated that the best place to catch fish, and the finest fish, is as close as possible to the bar at the entrance of the Columbia river. One thing besides that has been learned, and that is that the boats used are not adapted to fishing in that locality. If the business is to be carried on hereafter it will be necessary to provide sea going craft to take the place of the little fishing boats, We need but refer to the list of disasters, day after day, to show the urgency of this suggestion. Tug-boats like the Brenham, the Astoria or the Columbia, should be used, with nets and other places of interest in this much longer and deeper than the ones in use, and the nets should be taken up by steam power. A revolution in the methods of catching the fish seems more than probable. In case that it was thought dangerous to use such vessels as tenders as we have mentioned above, in consequence of the liability of getting the net into the propellor, paddles could be point amicably. Look and see that used set far forward, or else the notice "no admittance" on the corpropellor could be in some way protected from the net. We do not presume to know just how the work can be performed, and merely offer this suggestion as the result of " conversations growing out of the num-· rous disasters recently occurring. We avite correspondence from fishermen, nd men experienced in matters of this kind.

The Sample Copy Business.

Frequently we receive postal cards containg a request for us to forward a ample copy of THE ASTORIAN to the terson whose name is given on the · ard. For years we cheerfully comlied with the requests, paying postge on the copies sent gratuitously, at after a time we discovered that these sample copies were used to obtain the names of farmers and other persons published in the paper, and these persons were soon in receipt of all sorts of circulars, swindling dodges, tc., etc., hence we send no more ample copies on postal card orders. In a business point nothing is gained ly publishers who fill such orders. A rewspaper is as much an article of taerchandise as a paper of pins or a pool of cotton, yet a man would be considered out of his head in any ther line of trade, to send pins, needless and spool cotton, on such orders, paying the postage out of his own pocket, to some man in Kentucky, Alabama, or New England, because he was simply requested to do so.

Room for a Colony.

A friend who has been over in the North river country, beyond Shoalwater bay, informs us that there is room on that river for two hundred farms. North river empties into the Willipa below South Bend mills. It drains a vast and fertile region. Our informant says the land is very easily cleared. That two men, in there now, have cleared two acres a week for planting. The river is navigable to the falls, and runs through a tertile bottom, which is only subject to overflow in the lowest places. Above the falls a drift has accumulated which it would be difficult to move, but it can be got around, and above it there is an extensive and beautiful prairie.

A Fiat Fool.

Daily Oremnian, 11th.

In the Maine greenback convention on the 3d June, Ladd, a greenback idiot, whom the people last year elected to congress, denounced Secretary Sherman because he was "oppressing the people with the power of the treasury;" in ASTORIA proof whereof, he said that "Sherman had sold \$190,000,000 worth Kid Cloves of Every Kind. of four per cent. bonds in one day to bloodsuckers who were choking t'e country." Therefore he "should be impeached." There is to fool like a greenback fiat fool.

-Referring to disasters of fishing boats, and the loss of life and property, i ie Astoria correspondent of the Oreconian makes the following important aggression: "It is sadly to be feared that many of these men take whisky out with them, and drink at least enough to make them very drowsy if not drank. It would be a good plan for owners of boats to employ an inspector. Sober men would not obet to it, and those who did object JOUVINS. PEERLESS. could be deemed guilty, and not worthy to be trusted with a valuable boat and net."

Excursion to Puget Sound.

A great excursion from Portland to Seattle, W. T. and back, will come off June 24. Astorians and all others in this vicinity who wish to join this party, will meet them at Kaklama at 11 o'clock of that day, and take the Northern Pacific railroad train for New Tacoma, thence to Seattle by the Parific Coast Steamship Navigation Co.'s boats. A grand reception at Yesler's hall will greet the party in the evening. This is one of the most favorable opportunities of visiting Puget Sound ever offered to our people. From Scattle parties can visit every place on the Sound. The excursion is under the auspices of the M. E. church, and superintended by Rev. Isaac Dillon. Tickets from Kalama to Seattle and return, only 85 50. Children under twelve, half price. Tickets good till July 15th.

-The teachers in the public school for the year closing June 6th have been, W. L. Worthington, Miss Neal, Miss Hewitt, Miss McGregor, Miss Holden and Miss Brown. No report was made of the primary grades, except to give the names of the pupils.

-Senator R. B. Cochrane was intending to return home to-day, but will remain over upon invitation of Capt. Flavel, in order to make a trip to sea this morning upon one of the bar tugs, and visit the fortifications vicinity, in company with a party of citizens and friends from Astoria.

- There is somewhat of a conflict in opinions respecting what it was prevented the destruction of Capt. Flavel's large warehouse at the destruction of Trenchard & Upshur's store by fire. We will undertake to settle the ner of the building. Is it not plain that that notice had something to do

DIED.

Of diphtheria, near Hepner, Umatilla county, Oregon, on June 6th, MARV, daughter of Dr. Alfred and Louisa Kinney.

NEW ADVERTISEMENTS.
