Some say that it is no use for them to advertise, that they have been in the place in business all their lives, and everybody knows them. Such people seem to forget to take in consideration seem to forget to take in consideration that our country is increasing in population nearly 40 per cent, every ten years, and no matter how old the place may be, there are constant changes taking place; some move to other parts, and strangers fill their places. In this age of the world, unless the name of a business firm is kept constantly before the public, some new firm may start up, and, by some new firm may start up, and, by liberal advertising, in a very short time take the place of the older ones, and the latter rust out, as it were, and be forgot-ten. No man ever lost money by judi-cious advertising.

It softens the guns, reduces inflamation, curs wind colic, and car ries the infant safely through the teeth ing period.
