Remember the Sabbath day.
 Mr. Robert Miller, of the South Bend mills in the city.
 The Courser sailed yesterday. The Orient is ready for sea.
 Steamer day. Columbia to sail. State of California to arrive.

The barkentine *Waldoot* is landing a whole cannery here for Mr. Joseph Hume.
 Why is the healthy respiration of a person like one of Dr. Yorks lectures? Because it is free.

Presbyterian church, preaching by the pastor, Rev. J. V. Milligan, at 11 A. M. and 7 P. M. Sunday school at noon.
 Services of the M. E. church in the Baptist church at the usual hours. Sabbath school after the morning services.

Some enthusiastic fashion writer predicts a revolution in underwear. Well, a change in such things is necessary, once in a while.
 Astoria supports the biggest peanut store of any city on the Pacific coast. The main room is fifty long by twenty-five feet wide.

The Knapsack mills last year, 1880, shipped over 14,000,000 feet of lumber, included in which were thirty-six cargoes for San Francisco.

Mr. James McComber is now engineer of the *Amoskeag* steamer of Astoria fire company No. 1, in place of Mr. Roeder, who is first keeper on Tillamook rock.

Two vessels are loading at South Bend mills, the *Argonaut* ready for sea yesterday, and the *Enterprise* arrived on Thursday. The *Annie Ghee* is also due there today.

There will be the usual religious service at the Young Men's Christian Association hall this afternoon, at a quarter to three. Singing from Moody and Sankey's gospel hymns. Cordial invitation extended to all.

There is nothing about the city about which so much complaint is made as the neglect to light the lamps on the roadway. We understand that one of the lamps has been stolen from the roadway, post and all.

Mr. John Davis, of Oysterville sending for Kendall's treatise on the horse, says: "Perhaps I can get to understand the 'mules' I have to deal with better by consulting the book." It is a sure shot, Bro. Davis; and don't you forget it.

With our experiences of the past nine days we have finally reached the conclusion that, called upon to do so as a matter of necessity, we could sit by the side of a trip-hammer, and not be disturbed by its motion, carefully editing a newspaper all the time, as it pounded out bars of iron from the bloom of a puddling furnace. It is all nonsense for men to think they cannot study nor write, clip nor paste, in the midst of noises worse than bedlam.

The Salem Statesman of the 17th says that a few days previous to that date Reuben Gibney and Harrieh had a narrow escape from a very serious accident. When the reverend gentlemen were on their way from Gervais to McMinnville, and going down the steep and mean road to Rays ferry, the horses became unmanageable, and only for timely assistance the accident would have been a very serious one indeed. Father Gibney has since returned to Astoria.

Damaged Wheat.

The Standard says that workmen are busy removing wet wheat from the docks, which has mostly been purchased as a speculation. Molsons brewery has dried considerable since the flood, and the grain presents a good appearance, but is very brittle. It is thought it can be ground into feed or even an inferior grade of flour. All waste is being made to dry wheat before it begins to sweat, after which it would be of no use whatever. One lot sold for forty-five cents per sack when wet and after drying brought one cent per pound, netting a handsome return, but it is safe to say that not all of it will prove so valuable. The feed stores are handling very little of it, preferring to buy it after it is dried and tested. Nearly all that was damaged has now been sold, and it is hoped that none of it will find its way through the mills into flour.

Keep Away from Portland.

In view of the prevalence of scarlet fever as an epidemic in Portland, Major John Moore, medical director of the department of the Columbia, has written a letter advising the people of the harbor and of Vancouver to prevent any children from visiting Portland during the prevalence of the epidemic, and cautioning every one concerning entering rooms where there has been scarlet fever. The recommendations in the letter are timely, and should be strictly followed. Orders will be issued at the garrison to enforce proper precautions.

Yakima Winter.

A private letter from a friend at Yakima contains the following, January 19th: Snow four feet deep has been on the ground about four weeks. Cattle are dying all over the county. The few who have hay are keeping the cattle for one half; as there are two crabs in the snow it is impossible for them to get anything to eat. Business is dead; everyone is blue, and praying for a Chinook; but now it is too late, as at least one-half of the cattle will die. I have been up almost night and day with stage work. You folks don't know what we have to contend with to get the mail through. Just think of six of our best horses on a light stage or sleigh, and then eight on to twenty hours on fifty miles of road. Thermometer six degrees below zero at 8 A. M. I tell you it is rough. Have crossed the Yakima twice on the rope this winter.

Tillamook Light a Success.

Messrs. Trenchard & Uphur are in receipt of the following official letter from Mr. J. W. Munson, keeper at Point Adams light:
 Jan. 21, 1881, 8 P. M.—The signaling is a success. The first flash from Tillamook rock lighthouse at 7:35. Looks gay. Three cheers for the new light, long may it shine.
 J. W. MUNSON, Keeper.

Akron, Ohio, May 7, 1880. Some three years ago I had a horse become very lame from a spavin. I treated it with Kendall's Spavin Cure with marked success; since then I have sold a great many bottles and have heard of cures resulting from its use. I am frank to say I can cheerfully recommend it an honest remedy. I remain yours truly, A. M. Armstrong. Read the advertisement.

What pleasure it is to pay one's debts! In the first place, it removes that uneasiness which a person feels from dependence and obligation. It affords pleasure to the creditor, and therefore gratifies our social affection. It promotes that future confidence which is so interesting to an honest mind. It opens a prospect of being readily supplied with what you want on future occasions. It leaves a consciousness of our virtue; and it is a measure we know to be right, both in point of justice and sound economy. Finally, it is the main support of simple reputation. Pay us, that we may pay others.
