—Fine weather for coasting. All is water is snow.

—The Oregon left San Francisco for this port yesterday morning.

—Diphtheria in a most dangerous form has appeared at Roseburg.

—San Francisco experienced three earthquakes within two hours on Tuesday.

—Thieves are in the city, look out for them and be prepared to give them a warm reception.

—It is provided by city ordinance that fast driving shall not be permitted on our roadways.

—Capt Hoyt reports not much ice in the Columbia, but the boats go by way of the slough.

—Mrs. Capt. P. Johnson will please accept our thanks for a beautiful bouquet of choice flowers from her garden.

—The barkentine Wetfoot is still at St. Helens unable to get to Portland on account of ice in the mouth of the Willamet.

—The Ges. Harley will leave for Tillamook rock this morning to land the siren, accompanied by the tug Astoria, weather permitting.

—Capt. P. Johnson returned to Astoria Tuesday evening from Portland. The ice in the river would not permit him bringing his vessel.

—The Skabrick is still ashore near Swan island. Dredgers are at work making a channel for her to get back into deep water. It is expected she will be afloat in a day or two.

—The only vessel in the harbor is the Archer, in ballast. The Earl Derby is still at anchorage at fort Stevens awaiting a favorable opportunity to proceed to sea.

—J. W. Robb, esq., has been appointed deputy prosecuting attorney for Clatsop county, by Hon. J. F. Caples, prosecuting attorney for the fourth judicial district.

—The British ship Aberystwith Castle, the captain of which was awarded a medal by the Astoria Chamber of Commerce for valuable assistance rendered the Pilgrim on her way from this port to San Francisco, is now in that harbor, discharging at Oakland.

—Yesterday was another cold day, and a sharp east wind was blowing all day which kept the snow which had fallen Monday night on the ground in an icy form. From reports of river pilots such weather will close the river, and suspend navigation in a few days.

—A report was circulated in Portland on Tuesday by some one who had more use for his tongue than his brain, that the steamer Columbia had been wrecked on the Columbia river bar, Tillamook rock or had gone ashore at cape Mendocino. The rumor, although unfounded, was alarming, until it was learned with certainty that it was only an untruthful report from an untruthful wretch.

—Capt. Pesse left Portland on Monday with the French bark President but owing to the large amount of ice in the river was compelled to come to anchorage in the Willamet. This will probably prevent the bark from having as quick a dispatch as was anticipated. She arrived in Portland, assigned to Geo. Marshall & Co., Jan. 18th, but owing to the high water did not get into ballast berth until the 26th, thus allowing her only four days for discharging ballast and loading 900 tons of wheat.
