is a mammoth sheet, exactly double the size of the Daily. It is just the paper for the fireside, containing in addition to all the current news, choice miscellany, agricultural matter, market reports, etc. It is furnished to single subscribers at \$2.00 per year in advance.

THE CITY.

THE DAILY ASTORIAN will be sent by mail at 15 cents a month, free of postage. Readers who contemplate absence from the city can send THE ASTORIAN to any post-office without additional expense. Addresses may be changed as often as desired. Leave orders at the counting room.

High tides still prevail. Police court has been very quiet the past week.

Steamer day-to-day. Oregon to sail, Columbia to arrive. See advertisement in another column to-day of tenders wanted.

The Tillamook schooner Kate L. Herron proceeded up river under sail yesterday.

Rev. A. T. Perkins and Mr. Carl Adler will be passengers by the incoming steamer Columbia.

The French bark Prudent and the British bark Otter arrived down last night in tow of the Okelahama.

The heaviest rains that have visited Astoria and vicinity for some time, have been falling unceasingly for the past forty-eight hours.

Mariners are hereby notified that the flash light at point Adams has been changed to a fixed red. The change was made on Monday night.

We learn that two men who have been in the sailor boarding house business in this city have skipped out, leaving numerous unpaid bills.

The Gen. Canby was unable to lay at Ilwaco wharf yesterday long enough to land all the freight, on account of the roughness of the weather.

The concert to be given by the Young Mens Western band will take place at Liberty hall on Tuesday evening next. The programme will appear in THE ASTORIAN to-morrow.

The steamer Magnet made a trial trip yesterday and was found to be admirably adapted for the trade for which she is intended. Messrs. Arndt and Ferchen placed the machinery in position.

Yesterday morning about one o'clock, officers Ginder and Baker rescued a man who had fallen overboard near G. W. Humes store, on Squemoque street. His name was not known and he was under the influence of liquor at the time.

The bark Dovenby is being loaded by J. G. Fairbairn & Son. She will take on board about 19,000 cases salmon, 16,000 of which are already stored in the Oregon Railway and Navigation company's warehouse. This is the last of the catch of 1880.

Four Chinamen were drowned on Wednesday last in the river near Brookfield, capsized in a small skiff by the waves from a steamer while passing. Five were in the boat at the time, on their way from Pillar rock to Brookfield. One was rescued, but the others sank before assistance reached them. As will be seen by advertisement in another column a reward of \$20 each is offered for the bodies.

During the storm on Monday night several fences were blown down, although no material damage was done to property throughout the city. The rain continued incessantly, overflowing sewers and placing the streets in a bad condition. A man was blown overboard from the roadway, and was only rescued by the immediate presence of police officers. On Youngs river the roof of a house was carried a distance of over a hundred feet and deposited in the forest. At point Adams, and in the vicinity of the light-house, several trees were fallen to the ground and fencing damaged. We have no reports from other parts of the country, although no great loss is predicted.

An Exciting Hunt.

EAGLE CLIFF, Jan. 31st, 1881. EDITOR ASTORIAN: Knowing how fond you all are of hunting stories, I thought perhaps you could find room for the following: A gentleman in this vicinity, more excitable than judicious, recently stumbled on a flock of white geese while out duck shooting, and after a severe crawl of two hundred yards, succeeded in bagging a couple. Much elated, the joyful ninnor returns to his boat, and finds himself confronted by a shot gun with a man behind it. An exchange of courtesies (and oin), immediately ensued, and the granger apologized by saying, "then geese was thoroughbred imported china geese, else I wouldn't a cared." The hunter returned home in a very dejected mood, and did not fully recover his spirits till dinner time, when he vented his wrath on the cause of all his trouble. AERIAN BOY.

The Portland evening Bulletin has suspended publication.

Bishop Morris will occupy the pulpit of Trinity church at San Jose, California, next Sunday. He is expected to reach home in about two weeks.

The telegraph wires are down between Astoria and Portland, having been prostrated by the storm on Monday night. Several days will perhaps be required to place the line in working order.

Mr. F. T. Joyce, formerly connected with the Standard at Portland, is in the city and favored us with a call last evening. He will be a passenger to England by the bark Otter, which will sail in a few days.

It is stated that the Northern Pacific and the Oregon Railway and Navigation company will need during the coming summer 4000 Chinese laborers. It will not be possible to secure that number in the state, and many will be brought from San Francisco.

The Wide West got to the Cascades on Monday, but the R. R. Thompson could not get down from the Dalles on account of a gorge at Klickitat. A heavy, warm rain set in at Portland about dark Monday night and still continues, with a prospect of opening the river. The streets of Portland are flooded.

The first quarter of school in district No. 17, near Knappa, closed on Wednesday last, with an average attendance of eleven. The whole number enrolled was twelve. Master F. B. Allen memorized the multiplication table at the age of eight years, other pupils acquitting themselves equally as well. The people are well pleased with their new district.

Prof. L. Cary, the celebrated astronomical lecturer, will give one of his interesting and instructive entertainments to-morrow evening at 7:30 o'clock, for the benefit of the Young Mens Christian association, at their hall. Full particulars of this wonderful performance will be found in the bills circulated throughout the city. We predict the benefit will be a decided success. The price of admission has been placed at the low figure of twenty-five cents.

We were in error in stating yesterday that Mr. Joseph Hume was having constructed in San Francisco a number of boats. We should have given the credit to Astoria, as the boats are being built by Wm. Howe at his shop on Concomly street. Eleven have already been delivered to Mr. Hume, and are now in Captain Hustler's warehouse. No finer boats could be built anywhere. We are pleased to note that Mr. Hume has given the work to home manufacturers.

From a private letter received in this city from Mr. A. Roeder, head keeper at the light-house on Tillamook rock, we are informed that the storm along the coast on Friday night was one of the most violent that has been experienced for some time. He says the wind seemed to shake the entire rock. It lifted sacks of coal and hurled them from the rock like sacks of feathers. The seas struck with such force as to throw the spray a considerable distance above the top of the light-house, completely burying it for several minutes at a time as if beneath a mighty deluge.

The Peruvian syrup has cured thousands who were suffering from dyspepsia, debility, liver complaint, boils, humors, female complaints, etc. Pamphlets free to any address. Seth W. Fowle & Sons, Boston.

Marvel not that I say unto you, ye must pay the printer. Whosoever neglecteth to pay the printer, hath not eternal life abiding in him. Who hath sorrow, who hath woe, who hath the nightmare! They who forget to render unto the printer his just dues. If a man live many years and payeth not for THE ASTORIAN, behold he shall not die in peace till he hath rendered to the printer that which he hath withheld.

The B. & O. Red Book.

We are in receipt of a copy of the B. & O. Red Book, compiled by J. G. Pangburn and published by the Baltimore and Ohio Railroad company. The aim has been to present the returns of the late election in such form as will most clearly show its results, and to this end the returns of previous elections are shown, and from them the gains and losses compiled. The returns for 1880 are given as sent to this office under the official seals of the county clerks of each county, and subsequently revised from official reports received from secretaries of states. It is the most complete political text book ever published. A second edition will be issued within a few weeks giving the presidential returns by counties in each state, and showing comparisons with the vote of 1876 with majorities, gains and losses. The new B. & O. Red book, while not for carelessness or indiscriminate circulation, will be sent without money and without price to all who care to write for it to C. K. Lord, Baltimore, Md. The enclosing of a three cent stamp will pay the postage, and the book will be sent promptly upon application.

Syphon Study Lamp.

Hon. I. W. Case, of Astoria, in placing the new Syphon study lamp on the market, would call the attention of the trade to some of its merits. Its illuminating qualities are not equalled by any study lamp in use. It gives a steady, brilliant light; is free from unpleasant odor; does not drip either when burning or not burning; easily lighted and trimmed, and is without exception, the most convenient lamp to fill ever made. Directions accompanying each lamp. Call upon Mr. Case and buy one. He sells them at remarkable low rates.
