A. T. Perkins, Messrs. J. W. Hume, Carl Adler and A. L. Fox returned by the Columbia yesterday. -The river is fast rising again, and fears are entertained that a repetition of the recent flood will be the result. -The cargo of the French bark Prudent, bound for Falmouth, consists of 19,605 cents wheat, valued at \$28,427. -A curtain in the old Union home building took fire night before last, but was subdued without further damage. -Messrs. It seems to us that this is a gross neglect on the part of the proper authorities. Won't some one who has a christian heart take the matter in hand and see that the bodies are decently interred? -Bernhardt Larsen, a Swede, aged about 20 years, who was employed as fireman on the Mary Taylor, has been missing since the 10th ult. The report that he was drowned was first circulated, but without foundation. It has since been ascertained that he was unwillingly taken on board a ship bound for England. He was said to be a steady young man and a good workman. He had no relatives in this country, but was stopping with Mr. Peter Nickelsen, a machinist in the employ of Messrs. Arndt & Ferchen, who will forward information to the proper authorities at the vessel's destination. He had been previously employed by Arndt & Ferchen.

Had Been There Himself

One of our citizens was going home at a late hour recently, when he was suddenly confronted by a footpad, who, with pistol pointed at his head, demanded his money. The citizen assured the fellow that he had no money, that he had "been to a fair." Before he could say more the rascal dropped his pistol, put it in his pocket, and presently took out his wallet, and crushing something into the citizen's hand, said, in grief-broken accents, as he turned on his heel, "been to a fair! Poor fellow! take that—I wish it was more." He was soon lost in the night. Upon approaching a street lamp, the citizen found that the miscreant had given him a ten-dollar bill. Verily, one touch of nature makes the whole world kin.

Y M C A.

The regular monthly meeting of the Young Men's Christian Association will be held at their hall this (Friday) evening at 7:30 o'clock.

The British bark Scottish Hero, from this port to Queenstown, was spoken December 31st in latitude 4 N. longitude 26.

The Pacific Censor, published at Vancouver, says "It is neither for sale or loan," although the subscription price is \$1.50 a year.

Albany has an altitude of 157 feet above mean tide at Astoria and is situated in latitude 44 degrees 58 minutes; longitude 123 degrees 18 minutes.

Seattle's city debt is being extinguished at the rate of about \$700 a month. Its warrants have immensely appreciated during the last two, three and four years.

Several interior papers come to us printed on the half sheet, in consequence of being unable to obtain their patent outside from Portland on account of the flood.

One of the Albany girls who had been receiving attention from a young disciple of Blackstone says that if there is anything in the world that she likes it is the strong arm of the law.

The new river steamer, now being built at Portland, by Capt. U. E. Scott, is progressing rapidly. The vessel is designed to run either on the Astoria or Cascade route, and is being built with the view of making her the swiftest boat on the river.

Efforts are being made by the agents of the Central Pacific railroad company to obtain the controlling interest in the Olympia and Tenino railroad and to extend the line to the Seato coal mines, in which they are largely interested. If accomplished this will give some life to Olympia.

Quite a number of newspapers referred to the flood of 1862, comparing it with the one which visited the valley recently. Old residents state that there was no flood in 1862, but that it was in December, 1861, the highest water here being on the 3d of the month.

The Columbian says truthfully that congress should appropriate half a million dollars to improve the mouth of the Columbia river. The Columbia is the chute to feed the world, and the sooner the United States wakes up to that idea the better it will be for humanity in general.

The grand concert and carnival masque ball to be given by the different lodges of the Ancient Order of United Workmen of Portland and East Portland, at New Market theater Wednesday evening next, promises to be the social event of the year. A floor extending to the dress circle will be built over the parquet, on a level with the stage, and will give dancing room forty by one hundred and fifty feet.

The Tacoma Ledger says: "On or about the 15th inst., Indian Harry, who had been employed at Hanson, Ackerson & Co's mill, fell into the open fireplace of his cabin, while intoxicated or in a spasm, and was fatally burned. He was not discovered until a week afterwards, when he was found as he had fallen, still alive but unable to move. His face, one of his eyes, shoulders, arms and hands were horribly scorched, and the flesh had fallen away in places. One of his hands was drawn up like the claw of an eagle and the tendons of the other hand were exposed, the flesh having been burned off. He was taken to a cabin near the mill and Dr. Wing was called, but found him injured beyond the reach of remedy. He died on Wednesday evening."

Persons desiring to subscribe for the daily Oregonian will find it to their advantage to call at the City Book store, as we furnish it for less money than other agents. -Salmon bellies, at retail, at Warren & Eaton's.

Clean Newspapers.

Parents can not be too particular in the kind of newspaper literature they introduce to their families. Newspapers that abound in coarse and indecent allusions, indicative of the natural coarseness and imbecility of their editors, are not the kind of papers that children should have daily access to. No father wants a paper in his house that he cannot trust in this respect—one that he is obliged to read in advance to see if it will do to submit it to his children. He has a right to insist that his family paper shall at least be clean, even though it be wanting in honesty or ability. A liberal exercise of this sacred right would soon crowd out of circulation all nasty newspapers, and compel their vulgar and low-minded editors to seek employment more congenial with their disordered tastes.

Col. Geo. L. Gillespie desires to notify wishers that in accordance with a late "Notice to Mariners," published by the light-house board, Washington, D. C., the light at point Adams, at the mouth of the Columbia river, was, on the night of the 1st, changed from a flashing red and white to a fixed red light. Mariners will do well to bear this in mind.

The cantata of Queen Esther was produced at Albany on Monday, Tuesday and Wednesday evenings last, about fifty persons taking part in its rendition, all house talent. It is said that no performance ever given in that city created such great excitement among the citizens, or elicited such general praise as the cantata of Queen Esther. The proceeds are for the Young People's Christian association and will foot up \$350.

A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each. EVERY FARMER SHOULD OWN THIS BOOK. Thousands who have seen it commend it, and many good horsemen have extolled it in the highest terms, even stating that they prefer it to books which cost \$5.00 to \$10.00. Do not throw away your money in the purchase of costly books on the Horse, which are so full of Latin phrases and technical terms as to be unintelligible to the average reader but BUY KENDALL'S TREATISE. A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost. Having examined this book thoroughly we are satisfied no HORSE-OWNER Would hesitate a moment about investing 25 cents in its purchase, if he did not know the value of its contents.
