We were in error a few days ago in our item stating that Major Throckmorton would take command of fort Canby, of which Col. Eltonhead was in command (as we said). Professional Bums.

We had supposed that the reception given professional tramps in this city some time since had rid us of that profound nuisance, but alas, we notice them again the past few days, standing on the street corners, stout, healthy and robust fellows, begging for a quarter with which to get something to eat.

Another kept his word better, apparently taking enough meals to last a week. The third stood in front of a saloon on Chenamus street. The first man to come along was a well-to-do farmer living on Clatsop plains, who was accosted by this "poor unfortunate fellow" who represented himself as being dead broke and was desirous of securing a place on a ranch where he could earn his board until fishing season.

There is an unaccountable fascination to some men in the keeping of a ferocious dog which terrorizes the neighborhood. The bigger and fiercer the brute, and the more likely he is to get loose, the more his owner enjoys life, and the prospect of coming home some day and hearing that a woman or a child next door has a series of holes in their anatomy exactly corresponding to the teeth of his pet.

HORSE

And his Diseases, by B. J. KENDALL, M.D.

Full of Valuable and Practical Information, and Containing an INDEX OF DISEASES.

Which gives the symptoms, cause and the Best Treatment of each; a table giving all the principal diseases used for the Horse, with the ordinary dose, effects and antidote when a poison; a table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse; 60 engravings showing the important points in the structure of the horse, also illustrating positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each.

EVERY FARMER SHOULD OWN THIS BOOK.

Thousands who have seen it commended, and many good horsemen have extolled it as the highest treatise, even stating that they prefer it to books which cost \$5.00 to \$10.00. Do not throw away your money in the purchase of costly books on the Horse, which are so full of Latin phrases and technical terms as to be unintelligible to the average reader but

BUY KENDALL'S TREATISE. A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost. Having examined this book thoroughly we are satisfied you

HORSE-OWNER

Would hesitate a moment about investing 25 cents in its purchase, if he did not know the value of its contents. Recognizing the desirability of having such practical information as our farming friends daily need in their business, provided at reasonable cost instead of being obliged to pay the enormous profits demanded by the Publishers of most Agricultural Books, we have secured
