We are informed by Capt. Fred Congdon that Mr. C. Leinenweber, of the firm of Badollet & Co., visited Sand island with him on Thursday last, and also located a place which he has sub-leased from Cook Bros., on the island, for purposes connected with the next season's salmon catch of their extensive cannery.

Our comments in reference to the life saving crew at cape Disappointment has received, as we expected, a reply from Capt. Harris, which we publish in another column. Our remarks were based upon the surprise expressed by the captain of the abandoned schooner who was of the opinion that his signal of distress must have been plainly visible by a man on the cape with a good glass. We believe that Capt. Harris' explanation will be fully as satisfactory to the public generally as it is to us.

Miss Ida Brown in China.

The first letter written home by Miss Ida Brown since the Alden Besse arrived in Hongkong, was received by her sister Mrs. C. H. Page yesterday. Miss Ida was in excellent health and spirits and expressed herself as having enjoyed the sea voyage very much, had a fair passage until within three days of Hongkong, when for a change the Besse encountered a small typhoon, heavy seas frequently breaking over her deck. Miss Ida writes that she likes the country much better than she expected she would, and greatly enjoys her buggy rides which are made in a sedan chair, which is trotted off at a 2.40 gait almost, borne on the shoulders of four stalwart natives. It is her intention to return to her home on the Alden Besse in preference to taking the steamer by way of San Francisco, expecting to reach Astoria some time in April. Her many friends will join in wishing her a bon voyage.

The schooner Gen. Garfield, recently built at St. Helens and now ready for launching, is offered for sale by W. J. Stevens, the builder.

We are in receipt of a letter from W. O. Seese, 421 Olive street, St. Louis, requesting information in regard to the whereabouts of one Washington Seese, who was in Astoria about ten years ago. If any one knowing of his whereabouts will address us we will cheerfully forward the same.

Governor Thayer has recently commuted the sentences of the following convicts in the state penitentiary: J. A. Peck, sentenced from Lane County for forgery for the term of two years from Dec. 2, 1879, upon petition of citizens of Lane county and recommendation of the judges before whom he was convicted; Charles Crowley, sent from Lane county Nov. 6, 1880, for the term of one year for the crime of larceny, upon petition of citizens of Lane county and recommendation of the judge before whom he was convicted.

The Astoria correspondent of the Oregonian gracefully acknowledges the "personal" in its issue of Friday, complimenting his correspondence and occasional editorial efforts, but he desires to state that his own business did not allow him to assume full editorial charge of THE ASTORIAN on the present occasion of Mr. Ireland's absence. Mr. F. W. Bates, who has been in Mr. T's employ for many years, has risen from a boy in the office to the responsible position of now filling the editorial chair; and we are willing to help Frank.

Card from Capt. Al. Harris.

U. S. Life Station No. 2, District 12-1
Fort Canby, W. T.
Feb. 12, 1881.

EDITOR ASTORIAN:
I notice an editorial in your last issue of the weekly which reflects upon the efficiency of the life saving crew at this station, and demands an explanation.

In justice to the crew and myself I wish to make a short statement in regard to the schooner Emily Stephens, which crossed the bar on the 8th inst. She was reported at noon by Surfman Hall as beating up the south channel with easterly wind, bar medium smooth, and was seen by Surfman Oleson, the relief watch, to anchor where she remained some time. Then apparently, she either weighed, or slipped her anchors and squared away for about the place known as the swash in the middle sands, through which she passed in good shape, standing out to sea.

As to the vessel showing distress signals, or being abandoned, if so, it was not seen or suspected, perhaps owing to the great distance, although closely watched by the patrol and others through glasses. Even Capt. Johnson of the tug Columbia saw no signals of distress and he has a good glass to my knowledge. He started out thinking the wind was light and the danger of her dragging on to the sands, that she would like a tug's assistance, and it was sometime after he left that the schooner was seen to stand out through the swash in good shape. Capt. Johnson says he was on the point of returning when he discovered the boat and crew, and then it was that those on the hill saw that the vessel had been abandoned, and no one, up to that time, had thought the schooner in serious trouble, needing the assistance of the life boat; it then being of no use to lower it as all assistance needed was being rendered by the tug. This statement, I think, will be corroborated by Capt. Everson of the United States steamer Shubrick, Capt. Johnson, Mr. Anderson, light keeper and others. As to the watch on the hill, it is there at all times, and as to the crew being on the wharf that is the nearest they can get almost to the life boat. As to losing a good chance to show our pluck, etc., as Capt. Taylor says, I am sorry we did not know he needed our assistance, but I think very little pluck was necessary, it being rather smooth, and hardly rough enough to drill. We should be only too well pleased to have made us a record. I hope Capt. Taylor will get an ensign or something that can be seen, in case he should need it some other time. If we had seen such a thing as a signal of distress or any signs of distress whatever requiring the aid of this life boat, I assure all that we should have promptly responded.

Hoping this statement is satisfactory to all and that you will publish it in vindication of myself and crew.

I remain, very respectfully,
A. T. HARRIS,
Keeper U. S. Life Station No. 2.

From a Prominent Physician.

Washingtonville, Ohio, June 17th, 1880. The one bottle was worth to me one hundred dollars. Yours truly, M. A. Bertollet, M. D. Read advertisement.

Everybody that has tried Ammen's Cough Syrup, continues its use. They tell their neighbors of it. We were in a drug store the other day and a customer asked for a bottle of Ammen's Cough Syrup, saying "I do not know anything about it myself, but my neighbor told me to buy it for my cold, and tells me that the use of three bottles has entirely cured his cough of two years standing, in fact he says 'it is the best medicine in the world for coughs, colds and lung complaints,' and that a one-dollar bottle did him more good than all the prescriptions he had from the doctors."
