Under this heading the Oregonian of Friday says:

"The large new boot and shoe factory of C. Leinenweber & Co., at Astoria, has been in operation since Monday, and yesterday the first product of the factory, 150 cases of boots, were shipped to Akin, Selling & Co., of this city. This new enterprise promises to become one of the great industries of the state."

That the Oregonian should make such stupid blunders we are surprised. The Astoria boot and shee factory has been in operation constantly since the first day of August, 1879, since which Clara Weiman. time Messrs. Leinenweber & Co. have made a number of large shipments of beots and shoes to Portland, all of which has given entire satisfaction and have already gained Robert McLean, for this factory a reputation of turning Beanic Patterson out the best boots and shoes on this Chris Hambacher, willie Clough.
