We regret to learn that Mr. Sam. Gray, our fellow townsman, met with a very painful accident yesterday, resulting in the loss of the tips of three fingers of his left hand. It appears that the sawyer at Capt. Grays wood-yard was unable to attend to his duties and at the time no one could be found to fill his place. As there was urgent need of keeping the saw running to supply customers Mr. Sam. Gray undertook temporarily to fill the sawyers place with the above lamentable result. We fear it will be several days before Sam. will be able to follow his occupation of harness-making.

The river beach at the foot of Lafayette street presents a lively appearance just now. The sounds of busy labor every where greet the ear. Mr. H. B. Parker has erected a frame shed 30 feet wide and 123 feet long, and under its roof Mr. A. MacKenzie, with several hands, is at work on Mr. Parker's new stern wheel steamer, which will be 110 feet long. It is expected that the keel will be laid some time next week. Mr. Parker is much interested in watching the progress of the work. He informed our reporter that he could have contracted for the building of the steamer in Portland for probably \$1,000 less than it will cost him to construct and complete it in Astoria, but he just wanted to show Portlanders that we can build steamboats in Astoria.

On Thursday night last Chief Barry arrested a man named James McMillan, on a dispatch received from Chief Lappens, of Portland. McMillan was charged with larceny of \$160 from a faro house in Portland. He is also wanted on two other charges. He is a brother of Dan McMillan, who, in company with Nelligan and Smith, was arrested in this city in January last, for larceny of a watch from the steamer Alice. On Friday as the steamer Oregon lay at the dock, Chief Barry noticed a man whose appearance was rather suspicious and immediately arrested him. He proved to be Martin Lynch, an accessory of McMillan. Both were lodged in jail and information of their safety forwarded to Portland. Yesterday Detective Day came down and will return the prisoners to Portland to-morrow.

Annual Meeting of the Y. M. C. A. The members of the Astoria Young Men's Christian association, held their first annual meeting on Friday evening last. The report of the treasurer, Mr. E. S. Merrill, was read and showed that the receipts added to the amount due from the members for dues more than overbalanced the expenses incurred during the year. In addition to current expenses the association has paid seventy-five dollars out of one hundred loaned, without interest, by one of its members for the purchase of their fine organ. The officers elected for the ensuing year are as follows: Mr. E. C. Holden, president, re-elected. Mr. C. A. Hanson, vice president. Mr. C. C. Brower, secretary. Mr. E. S. Merrill, treasurer, re-elected. Executive committee, Rev. John Parsons, Mrs. W. W. Parker, Mr. W. H. Clough, Mr. F. S. Mead. On motion, it was resolved that the association hold a public anniversary meeting in the Congregational church on Sabbath evening March 13th. The Rev. B. S. McLafferty, of Eugene city, having kindly offered to deliver a lecture, subject, Scott's "Lady of the Lake," for the benefit of the association on Tuesday evening March 16th, on motion, his generous offer was accepted and the executive committee instructed to make all necessary arrangements. The meeting then adjourned.

R. Crawford, who has been prospecting for coal along the Coast Range between Coos bay and the Nehalem valley, says the country is full of it, and it only needs developing and railway transportation to make Astoria a coal shipping port equal to Seattle or Nanaimo.

Rev. B. S. McLafferty, who paid this city a prolonged visit last summer and who is now pastor of the Baptist church in Eugene city, has been engaged to conduct the services in connection with the dedication of the new Baptist church in East Portland on Sabbath next, 13th inst. Mr. McLafferty will avail himself of this opportunity by extending his trip to this city, and while here will deliver his interesting and original lecture on Sir Walter Scott's poetical masterpiece, The Lady of the Lake. The reverend gentleman is well known as an eloquent speaker, and as his lecture is for the benefit of one of our worthy local institutions, we doubt not it will be well attended.

From a Prominent Physician. Washingtonville, Ohio, June 17th, 1880. Reading the advertisement of Kendall's Spavin Cure and having a valuable and speedy horse which had been lame from spavin eighteen months, I sent you for a bottle by express, which in six weeks removed all lameness and enlargement and a large splint from another horse, and both horses are to-day as sound as colts. Horse Education. In something written we have an indistinct recollection of having made reference to a general disposition among boys in their teens, as well as boys of maturer years, to enlighten and bless the world with their profound knowledge of the horse and his history. Our books and newspapers are full of this kind of literature, and it varies in style from the production of the child at school, commencing with: The horse has four legs and a tail; up to the eloquent tribute of the scholar when he quotes from Job: That his neck is clothed with thunder and the glory of his nostrils is terrible. He smelleth the battle afar-off, the clunder of the captains and the shouting. Between these two extremes of the child at his first school composition, and the professional literature, we have every grade of pretention, and each professing to have mastered the whole subject. As we approach the close of this nineteenth century, we begin to look for something better in this department of knowledge from those who assume to instruct. And it is to be found in Kendall's Treatise on the horse, sent by mail to any person for twenty-five cents, postage paid. Apply to THE ASTORIAN office, or address D. C. Ireland, Astoria, Oregon.
