THE CITY.

THE DAILY ASTORIAN will be sent by mail at 75 cents a month, free of postage.

Colds are prevalent. Feast of Purim begins to-day. The Webfoot is still outside with pilot aboard. The steamer Oregon did not arrive yesterday. The weather clerk certainly made a mistake yesterday. Mr. J. G. Megler and wife were at the Occident yesterday. No alarm of fire has been sounded in this city for over three months. The British bark Viola, from Honolulu, arrived yesterday evening. Jack Frost made his farewell appearance on our streets yesterday morning. The steamship State of California arrived down and departed for San Francisco yesterday. The laying of the foundation for the new addition to the Occident hotel was commenced yesterday. Sunday last was the first anniversary of the organization of the Astoria Young Men's Christian association. The pilot boat J. C. Cousins, for the Columbia river bar, sailed from San Francisco for this port on Saturday. St. Patrick's day is near at hand and we hear of no preparations having been made for any celebration at Astoria. Mr. J. W. Hume, Mrs. Jos. Hume and children, and Mr. Carl Adler are passengers for Astoria by the Oregon. We are sorry to learn that Mr. C. J. Trenchard is confined to his home by a severe attack of inflammatory rheumatism. Mr. Alex. Campbell has just received one of the celebrated J. M. Brunswick & Balke billiard tables, which has a world-wide reputation and excelled by none. The Badura came down on Sunday in tow of the Ocklakama, Capt. Pease piloting. She sailed yesterday for Queenstown with 38,441 cents of wheat valued at \$51,000. The many friends of Mrs. John Fox will regret to hear that her visit to the valley has been prostrated by sickness. Mr. Fox was summoned by telegraph and left last Friday for Forest Grove. The bark Serica came down yesterday in tow of the Alice, Capt. Strang piloting. The Serica has had quick dispatch, having left Astoria for Portland a week ago last Sunday, consuming five days in discharging ballast and taking in her entire cargo. The beautiful weather yesterday started the annual garden fever, and was a great incentive to exertion on the part of sundry young ladies. Their reputation as tasteful artists in the construction of button hole bouquets is well established, and we trust they will remember our favorite colors. The lecture by the Rev. B. S. McLafferty this evening on Sir Walter Scott's great poem, The Lady of the Lake, will doubtless be a rich literary treat. Mr. McLafferty was for many years the popular pastor of the Baptist church in Oakland, California. He has the reputation of being one of the most eloquent speakers on this coast. We are informed that he has signified his intention to donate one-half of the proceeds of this lecture to the Astoria Young Men's Christian association.

Y. M. C. A. Anniversary.

The first public anniversary service of the Astoria Young Men's Christian association was held in the Congregational church on last Sunday evening. A large audience assembled and the exercises throughout were very interesting. The report of the president of the association showed that the income of the institution from all sources had been 236 dollars and twenty cents and the disbursements 210 dollars and ninety cents. Of the latter amount seventy-five dollars had been appropriated to the payment of a debt of 100 dollars incurred in the purchase of an organ. The free reading room, which is open to the public from nine a. m. to nine p. m. daily, is well supplied with religious and secular newspapers and other periodical reading matter. Of the daily newspapers THE ASTORIAN, the Portland Oregonian, and the San Francisco Alta, Morning Call and evening Bulletin are kept on file. The shelves of the book case however are at present very bare, and the association would gratefully receive a donation of any interesting and instructive books which might be bestowed by any friend to the institution. The Rev. J. V. Milligan delivered an earnest and eloquent address, showing that the association, composed as it is of members of all evangelical creeds, unsectarian and undenominational, was engaged in a grand work, and was calculated often to exert a good influence over those whom the church sometimes cannot reach. He stated that its object and design being an attempt to throw a safe guard around the young men of our city, it ought to receive an encouraging support and a warm sympathy from every head of a family. After Mr. Milligan's address a liberal collection was taken up for the benefit of the association. During the meeting several sweet songs from Moody and Sankey's book were sung by the choir, the audience joining, and the services closed by all rising and singing the soul-stirring song "Hold the Fort."

J. B. Hewett, of White river, has a cow which gave in six months, 8,504 pounds of milk. This cow has given forty pounds of milk at a single milking and seventy-four pounds for a day.

Messrs. Hatleys, Kenoyers, and Bailey, about ten men in all are reported to have struck rich quartz mines up in Idaho. Specimens of the ore have been assayed and show over \$140 per ton, mostly gold, but with enough silver to pay for working.

The trial of Harry Mace, for assault on A. J. Markey, was commenced at the court-house yesterday before Justice Fox. The trial was continued until a late hour, in the evening. Mace was fined fifty dollars and costs.

Sanders, one of the survivors of the late Clatsop Chief accident, has been removed to the St. Vincent's hospital, Portland. His injuries are of a very serious character. Every attention is bestowed upon the unfortunate sufferer by the attendants and visiting physicians. He is in a fair way to recover, having passed the critical period. The doctors pronounce him out of danger.

Vice President T. F. Oakes, of the Oregon Railway and Navigation company, left Walla-walla on the 11th inst. for Portland. He has been looking after his railroad interests up in that part of the country. The road is being rapidly pushed forward, and a large force of men are busy at work laying the rails. It is being prosecuted vigorously by the enterprising vice president. He guarantees that the trains will run to Dayton within fifty days.

A large meeting of settlers of White river valley was held at Seattle Friday evening last to consider a proposition made by E. Meeker, representing California capitalists, for the establishment of a beet sugar factory in that locality, providing the farmers could guarantee a yearly produce of 20,000 tons of the beets. The soil of the valley is said to be particularly adapted to production of the sugar beet, yielding an average of from fifteen to twenty tons to the acre. The proposition will probably be accepted.

McLafferty, of Eugene city will deliver his interesting and popular lecture on Sir Walter Scott's great poetical masterpiece, The Lady of the Lake. Admission fifty cents, children twenty-five cents. Horse Education.

In something written we have an indistinct recollection of having made reference to a general disposition among boys in their teens, as well as boys of maturer years, to enlighten and bless the world with their profound knowledge of the horse and his history. Our books and newspapers are full of this kind of literature, and it varies in style from the production of the child at school, commencing with: The horse has four legs and a tail; up to the eloquent tribute of the scholar when he quotes from Job: That his neck is clothed with thunder and the glory of his nostrils is terrible. He smelleth the battle afar off, the thunder of the captains and the shouting. Between these two extremes of the child at his first school composition, and the professional literature, we have every grade of pretention, and each professing to have mastered the whole subject. As we approach the close of this nineteenth century, we begin to look for something better in this department of knowledge from those who assume to instruct. And it is to be found in Kendall's Treatise on the horse, sent by mail to any person for twenty-five cents, postage paid. Apply to THE ASTORIAN office, or address D. C. Ireland, Astoria, Oregon.

By a recent postal decision men can actually make money by getting their bills and statements of accounts printed. Statements of accounts and bills of sale when made out on paper having printed headings, can be sent by mail for one cent, if the envelope is left unsealed; whereas, if it is made out on unprinted paper, it will cost three cents. Thus by patronizing THE ASTORIAN two cents can be saved on every bill or statement that is sent out through the mail.

Marvel not that I say unto you, ye must pay the printer. Whosoever neglecteth to pay the printer, hath not eternal life abiding in him. Who hath sorrow, who hath woe, who hath the nightmare! They who forget to render unto the printer his just dues. If a man live many years and payeth not for THE ASTORIAN, behold he shall not die in peace till he hath rendered to the printer that which he hath withheld.
