A limited number of small advertisements inserted at established rates.

THE CITY.
 THE DAILY ASTORIAN will be sent by mail at 25 cents a month, free of postage. Dealers who contemplate placing from the city can have THE ASTORIAN follow them, DAILY or WEEKLY, without any post-office without additional expense. Addresses may be changed as often as desired. Leave orders at the counting room.

—Dwelling houses are very scarce in the city at present.

—The German bark *Josefa*, from this port, arrived at Liverpool on the 11th inst.

—The bark *Viola* was taken up river yesterday in tow of the *Ocklahama*, Capt. Betts piloting.

—The attention of city tax-payers is called to the notice of the city assessor in another column. Hand in your returns.

—The British ship *Agnes Oswald*, for this port, from Cardiff, was spoken on the 26th of January in latitude 20 south, longitude 28.

—The light-house tender *Shubrick* visited Tillamook rock with supplies on Monday and she has returned and reports all well on the rock.

—Work has been commenced on the new building for Mr. J. Wm. Welch, near the Oregon Railway and Navigation company's dock.

—Among the new residences to be commenced soon is an elegant mansion for Mrs. Pope, to be erected on a lot recently purchased in the Hinman tract, fronting on Chenamus street. Mr. W. E. Headington is the contractor.

—Rev. B. S. McLafferty arrived in the city yesterday, and in accordance with previous announcement, delivered his popular lecture on Sir Walter Scott's *Lady of the Lake*, to a good audience. Mr. McLafferty is an eloquent speaker.

—The steamer *Oregon* did not make her appearance yesterday. Although her passage has been somewhat prolonged, we think no anxiety should be entertained as to her safety, as the strong head winds the past few days have undoubtedly caused her non arrival.

—A dispatch was received in this city yesterday announcing that Capt. Merryman had been appointed collector of customs at the port of Astoria. Capt. Merryman has for several years past filled very acceptably the position of deputy collector at this place.

—Attention is called to the advertisement of H. Cartwright & Son in another column of THE ASTORIAN today. Messrs. Cartwright & Son are experienced boiler makers and sheet-iron workers and have established themselves in this city for the purpose of carrying on a business which fills a want long needed.

—We learn that a great many horses throughout the city have been attacked by the influenza prevalent among horses in all parts of the state. There are but few, however, that are unable to work, while nearly all appear to experience but a sore throat. We have heard from what is considered reliable authority that tar, wrapped around the bit, so that the animal may constantly taste it, is a preventive from this disease.

—The delinquent assessment roll of school district No. 18 has been placed in the hands of Sheriff Twombly for collection. This district comprises the second ward in this city, and in looking over the names of the delinquents we were forced to the conclusion that many of them were either not aware that they had been taxed, or else that they had not been notified that their taxes were due. The sheriff informs us that he has no desire to run any tax-payer into costs, and he intends to receive the face of the taxes for one week longer, after which he will be forced to advertise the delinquent list, which will be an additional cost to the tax-payer.

—Caws and effect go together as the crow flies.

—Henry W. Dwight has been appointed register of the land office at La Grande, Oregon.

—L. P. Henderson, a pioneer resident of Wasco county since 1853, died at his residence on Thursday night last.

—The Harvest Queen is laid up for repairs, and the Mountain Queen has again taken her place on the route between The Dalles and upper Cascades.

—There are 516 children of school age in the Eugene school district. The taxable property in the district is returned at \$678,330; number of legal voters, 365.

—Harry Mace, who was fined fifty dollars and costs, before Justice Fox on Monday, has appealed to the Circuit-court. His bonds were placed at \$250, which were furnished.

—Capt. Eads is coming to look at the mouth of our river. Good enough! As congress pays but little attention to our pleadings, perhaps Capt. Eads can influence the mouth to speak for itself.

—The East Oregonian, published at Pendleton, has at last discarded its patent outside and now furnishes its patrons with a live journal, printed entirely at home. Success attend you and may you have many followers.

—Monday afternoon about half past three, fire broke out in the Oregon city woolen-mills, but was saved from complete destruction by the company's pumps. The loss is estimated at about \$16,000, which is covered by insurance.

—John Dickson, formerly carpenter of the British bark *Dilhree*, of London, will please communicate with his father or Capt. Hastie of bark *Glenesra*, of Dundee, at present at Portland, Oregon, as they would like to know of his whereabouts.

—Monday afternoon the new steam launch, *Argonaut*, built by Messrs. J. W. & V. Cook, for use between their cannery at Clifton and the new fishing station to be established at Sand Island, steamed down the river from Portland as far as St. Johns, on her trial trip. The craft is staunch and shapely, and she is built for speed. Her machinery, built by the Willamette iron works, is a model of strength, and worked very smoothly. The *Argonaut*, with 180 revolutions per minute, made a trifle over twelve miles an hour. Capt. Fred Coughlin will handle her wheel, and Mr. Herbert Holman the throttle.

—Last Friday, in broad daylight, a party of men, with wagon and spades, deliberately went into the vineyard of Mr. John Brendle, at Albina, and carefully dug up about a hundred choice vines, four years old, valued at four to five hundred dollars, and carried them off. The neighbors saw the men at work, but supposed, from the publicity of the affair, that the vines were removed by the direction of Mr. Brendle. They were seen to go in the direction of Holladay's addition, but so far can be traced no further. Mr. Brendle offers a reward for their apprehension.

—President Hayes, before leaving the executive mansion ordered that the following tract of land situated in Washington territory, be set aside and reserved for the use and occupancy of the Spokane Indians: Commencing at a point where Chenekane creek crosses the forty-eighth parallel of latitude, thence down the east bank of said creek to where it crosses the Spokan river, westwardly along the south bank thereof to a point to where it enters the Columbia river; thence across the Columbia river, northerly along the western bank to a point where said river crosses the forty-eighth parallel of latitude; then east along said parallel to the place of beginning.

—The St. Helen Columbian says: "On March 2d 1881, Capt. Nath. Ingersol, inspector for the French Veritas, made inspection number five of the new schooner building at the lower end of town and pronounced her to be one of the most finely built vessels of her size ever put up on the coast. The workmanship and the material used in her construction are of the very best, which reflects great credit on her owners and builders. She will soon be ready to take the water, so that she can receive her spars. Captain I. says her carrying capacity will be close on to 300 tons. We are not prepared to say what trade she will go into, but presume she will go into the Sound and Island trade, being well adapted for either. The Muckle brothers having increased their dock and mill capacity, will be always able to load her with lumber for San Francisco and elsewhere when necessary."

—A gentleman was promenadeing the streets with a bright little boy, when the little fellow cried out: "Oh, papa, there goes an editor!" "Hush, hush," said the father, "don't make sport of the poor man—God only knows what you may come to yet."

—The new town of Toledo, situated on the Cowlitz river is rapidly improving. A large warehouse has just been finished, and many new buildings are now in course of erection. Everything looks prosperous in that growing country. Toledo is rapidly increasing in population and wealth, and will soon be a very important place.

—Prof. J. P. Feaster will open a class in penmanship at the school house on Main street, on Wednesday evening next, 21st inst. The Oregon city Enterprise says of him: "Prof. J. P. Feaster of Portland, left us a few days ago for Astoria. The Prof. has had a class of over one hundred scholars here in penmanship, all of who are warm in their expressions, regarding his successful method of teaching. We commend him to the people of Astoria, feeling that they will have no cause to regret giving him a large class."

—The little steamer *Clatsop Chief*, which collided with the steamer *Oregon* about two weeks ago, a short distance above St. Helens, has been raised and towed to the last point mentioned. She was lying with her bottom upwards and upon raising her it was found that her bow was missing. It had been cleanly cut off by the collision. Her engines were found in their proper positions, not injured in the least. The Oregon bisected the unfortunate little steamer just close enough to carry away her boilers. A new boiler will be put into her and her bow renewed, after which she will be in splendid condition to return to her labors.

Tin Plate, Pig Tin, Etc.

—Auction or no auction, Adler's large stock, recently brought up by him from San Francisco, has so rapidly sold that he was compelled to leave again for San Francisco by the last steamer to replenish his store with all the latest novelties in his line. He is agent for the standard makes of pianos, organs and all kinds of musical instruments of which he will continue to keep a full stock.

—By a recent postal decision men can actually make money by getting their bills and statements of accounts printed. Statements of accounts and bills of sale when made out on paper having printed headings, can be sent by mail for one cent, if the envelope is left unsealed; whereas, if it is made out on unprinted paper, it will cost three cents. Thus by patronizing THE ASTORIAN two cents can be saved on every bill or statement that is sent out through the mail.

—Get your legal blanks at THE ASTORIAN office. A full line of over two hundred styles.

Syphon Study Lamp.
 Hon. L. W. Case, of Astoria, in placing the new Syphon study lamp on the market, would call the attention of the trade to some of its merits. Its illuminating qualities are not equalled by any study lamp in use. It gives a steady, brilliant light; is free from unpleasant odors and does not drip either when burning or not burning; easily lighted and trimmed, and is without exception, the most convenient lamp to fill ever made. Directions accompanying each lamp. Call upon Mr. Case and buy one. He sells them at remarkable low rates.

Central Hotel.
 The Central hotel, near the steamship dock is now open for the reception of guests, where the well known caterer, Mr. Anton Beloh will always be found ready to wait on his patrons. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

Marvel not that I say unto you, ye must pay the printer. Whosoever neglecteth to pay the printer, hath not eternal life abiding in him. Who hath sorrow, who hath woe, who hath the nightmare! They who forget to render unto the printer his just dues. If a man live many years and payeth not for THE ASTORIAN, behold he shall not die in peace till he hath restored to the printer that which he hath withheld.

 And his Diseases, by
B. J. KENDALL, M.D.
 Full of Valuable and Practical Information, and containing an INDEX OF DISEASES.
 Which gives the symptoms, cause and the Best Treatment of each; a table giving all the principal drugs used for the Horse, with the ordinary dose, effects, and antidote when a poison; a table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse; 45 engravings showing the important points in the structure of the horse, also illustrating positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each.
EVERY FARMER SHOULD OWN THIS BOOK.
 Thousands who have seen it commend it, and many good horsemen have extolled it as the highest treatise, even stating that they prefer it to books which cost \$5.00 to \$10.00. Do not throw away your money in the purchase of costly books on the Horse, which are so full of Latin phrases and technical terms as to be unintelligible to the average reader but,
