**THE CITY.**  
 THE DAILY ASTORIAN will be sent by mail at 75 cents a month, free of postage. Readers who contemplate leaving from the city can have THE ASTORIAN follow them, DAILY or WEEKLY additions to any post-office without additional expense. Addresses may be changed as often as desired. Leave orders at the counting room.

—Steamer day-to-morrow.  
 —The bark Serica sailed yesterday.

—Weather moderate, and how is your cold?  
 —The Trustee sailed for San Francisco yesterday.

—Mr. Geo. Taylor, jr. returned to Astoria by the Oregon yesterday.

—Carl Adler returned from San Francisco yesterday, bringing with him lots of good things.

—Mr. C. J. Trenchard has so far recovered as to be able to be around again and attend to business.

—The Webfoot arrived yesterday and was towed up to Knappaon, where she will load lumber for San Francisco.

—THE WEEKLY ASTORIAN to-day is a splendid number to send to friends abroad. Call at the counting room and secure a copy. Only ten cents.

—Capt. Everson of the United States steamer Shubrick, informs us that a spar buoy has been set on Peacock spit, in addition to the first-class one, marking the limits of the spit.

—A letter from California marked "important" and addressed to a Mr. William W. Price, care of E. C. Holden, can be had on application by the owner. Any one knowing the gentleman will please advise him.

—The telegraphic dispatches announce the arrival of the steamship State of California at San Francisco on Wednesday last, fifty hours from Portland. Good time! The distance from Portland to San Francisco is 767 nautical miles.

—Mr. J. L. Stout of Sea View is in the city. Mr. Stout informs us that he has already ordered the lumber and will erect a large and commodious hotel at his place on North Pacific beach, and intends to be in readiness for the accommodation of sea-side visitors about July 1st.

—Mr. Geo. Lambert, the leader of Hill's band, is entitled to great credit. Yesterday morning, the glorious 17th of Ireland, he arranged for fourteen instruments the tune of "Pat Maloy," which was played by the band yesterday, without a single rehearsal, the only celebration St. Patrick received in Astoria.

—Night before last was clear and bright, and the moon shed its gentle lustre over our city, in striking contrast to the gloomy and stormy nights we have experienced for more than a week previous. Appreciating the glad change, and bent on adding to the beauty of the scene and at the same time to the enjoyment of it by our citizens, the Young Men's Western band, under the leadership of Mr. D. A. Mackintosh, assembled at their headquarters and, with torch bearers accompanying, sallied forth from thence for the purpose of discoursing sweet music. The soft and melodious strains which they played were heard now in the distance and then close at hand as they halted to serenade at the residences of many of our fair citizens. "Music hath charms" at any time, but never is it heard to greater advantage or more thoroughly enjoyed than in the "stilly night." Mr. Mackintosh and the other young gentlemen who compose the Western band deserve great credit for the industry and close application it is very evident they have exercised in arriving at their present state of proficiency.

**Arrival of the Oregon.**  
 The steamship Oregon arrived at the dock in this city yesterday about one o'clock, from San Francisco. After leaving San Francisco she experienced strong head winds and rough weather. Off point Reyes the vessel was detained some time by the winds, and we are informed the light-house on the point could be seen by passengers for fourteen hours. The Oregon passed the California near Tillamook rock Monday evening, and reached the bar soon after, but was unable to cross on account of low water. Tuesday morning she was sighted from Cape Disappointment. The bar was not too rough for ordinary size vessels to cross, but the steamer was heavily laden, drawing twenty feet, hence the necessity of about thirty-two feet of water on the bar to prevent striking. Passengers by the Oregon say that if the steamer had been detained outside a day longer, it was Capt. Pohlmann's intention to proceed to Victoria or to the Sound, to procure coal and provisions.

—Mr. Townsend, manager of the bank of British Columbia in San Francisco, favored us with a call yesterday. He arrived on the Oregon and proceeded to Portland to make an appointment in the bank there, to fill the vacancy caused by the death of the late lamented manager W. W. Francis.

—Hon. Sel Hirsch of Salem, J. A. Strowbridge and G. Shindler of Portland, and all the rest of the passengers who were detained outside the bar for two days and two nights on the steamship Oregon, express themselves as thoroughly convinced now, that the entrance to the Columbia river should, and of necessity ought to be improved and that immediately, the opinion of the board of engineers notwithstanding.

—Conductors do the fare thing and masons the square thing.—Erratic Enrique. And editors the write thing.—Jacob Strauss. And laundresses the clean thing.—Marlboro Times. And police justices the fine thing.—Somerville Journal. This thing is getting pretty well finished but we will add that the man who supports a fainting lady does the prop-her thing.—Boston Post. If this thing is to close we would add the shoe makers do the last thing.

—Messrs. Phelps & Wadleigh, of Sooyook lake, British Columbia, have sold their large band of cattle, consisting of 12,000 head, at ten dollars a head, to Mr. Benjamin E. Snipes of The Dalles. This is the largest single transaction of the kind ever made in eastern Oregon if not in the entire Pacific Northwest, and indicates a strong faith in the buyer regarding the value of stock raising in spite of the past winter. The band of cattle purchased range in the Okanagon country and are all good stock. The sale involves a sum amounting to \$120,000.

—If you want to see something new, go to Adler's.

—Capt. J. H. D. Gray has just received a fine lot of Burbank Seedling potatoes, Yellow Newbon Pippin, and Wine Sap apples, Pound pears and a lot of No. 1 timothy hay, at his warehouse foot of Benton street.

—The reason of the detention of the Oregon, was that Carl Adler had some fine pianos on board, and on that account it was decided to wait till the bar played a different tune. They are Cabinet and Grand, regular beauties.

—Gray's wood yard is now fitted up on the wharf foot of Benton street, and prepared to deliver wood to any part of the city sawed to any length, and full measure.

—For the Genuine J. H. Cutter old Bourbon, and the best of wines, liquors, and San Francisco beer call at the Gem opposite the bell tower, and see Campbell.

—By a recent postal decision men can actually make money by getting their bills and statements of accounts printed. Statements of accounts and bills of sale when made out on paper having printed headings, can be sent by mail for one cent, if the envelope is left unsealed; whereas, if it is made out on unprinted paper, it will cost three cents. Thus by patronizing THE ASTORIAN two cents can be saved on every bill or statement that is sent out through the mail.

—Prof. J. P. Feaster will open a class in penmanship at the school house on Main street, on Monday evening next, 21st inst. The Oregon city Enterprise says of him. "Prof. J. P. Feaster of Portland, left us a few days ago for Astoria. The Prof. has had a class of over one hundred scholars here in penmanship, all of who are warm in their expressions, regarding his successful method of teaching. We commend him to the people of Astoria, feeling that they will have no cause to regret giving him a large class."

—Fresh leaf lard at Warren and Eaton's.

**Correction.**  
 When the editor of THE ASTORIAN left this city for the east, his first editorial correspondence, dated San Francisco January 31st, and published in our daily issue of February 8th, gave an account of the fastest time on record between this port and San Francisco, made by the good steamship State of California, upon which occasion Capt. Delney was the recipient of numerous testimonials, one very elegant one of which bears this inscription in a horse-shoe charm surmounting a beautiful pair of antlers:  
 To Capt. G. Delney,  
 Steamship State of California.

Fastest time on record,  
 Portland to Astoria 5 hours 5 minutes,  
 112 nautical miles.  
 Astoria to San Francisco 37 hours 35 minutes,  
 625 nautical miles.  
 Bar to bar—640 nautical miles,  
 25 hours and 30 minutes.

In publishing we inadvertently overlooked a typographical error which made a difference of 300 miles in the distance from bar to bar, the next to last line of the inscription, instead of reading 640 nautical miles, as it should have read, read 340 nautical miles. Hence the correction.

—From the Coos Bay News we learn that Capt. Parker, who undertook to float the ship City of Dublin, stranded some time ago near point Adams, has commenced operations in the matter of raising the machinery of the wrecked steamer Gussie Telfair, near Rocky point, Coos bay.

—The Dalles Mountaineer is informed that Jas. M. Jackson, of Camp Watson, was instantly killed on the 5th inst. by the overturning of his wagon while he was going down a grade. His neck was broken and skull fractured. Mr. Jackson was returning from Bridge Creek with a load of grain when the accident occurred.

**Horse Education.**  
 In something written we have an indistinct recollection of having made reference to a general disposition among boys in their teens, as well as boys of maturer years, to enlighten and bless the world with their profound knowledge of the horse and his history. Our books and newspapers are full of this kind of literature, and it varies in style from the production of the child at school, commencing with: The horse has four legs and a tail; up to the eloquent tribute of the scholar when he quotes from Job: That his neck is clothed with thunder and the glory of his nostrils is terrible. He smelleth the battle afar off, the thunder of the captains and the shouting. Between these two extremes of the child at his first school composition, and the professional literature, we have every grade of pretension, and each professing to have mastered the whole subject. As we approach the close of this nineteenth century, we begin to look for something better in this department of knowledge from those who assume to instruct. And it is to be found in Kendall's Treatise on the horse, sent by mail to any person for twenty-five cents, postage paid. Apply to THE ASTORIAN office, or address D. C. Ireland, Astoria, Oregon.

**Syphon Study Lamp.**  
 Hon. I. W. Case, of Astoria, in placing the new Syphon study lamp on the market, would call the attention of the trade to some of its merits. Its illuminating qualities are not equalled by any study lamp in use. It gives a steady, brilliant light; is free from unpleasant odors, does not drip either when burning or not burning; easily lighted and trimmed, and is without exception, the most convenient lamp to fill ever made. Directions accompanying each lamp. Call upon Mr. Case and buy one. He sells them at remarkable low rates.

**Central Hotel.**  
 The Central hotel, near the steamship dock is now open for the reception of guests, where the well known caterer, Mr. Anton Leboh will always be found ready to wait on his patrons. Marvel not that I say unto you, ye must pay the printer. Whoever neglecteth to pay the printer, hath not eternal life abiding in him. Who hath sorrow, who hath woe, who hath the nightmare! They who forget to render unto the printer his just dues. If a man live many years and payeth not for THE ASTORIAN, behold he shall not die in peace till he hath restored to the printer that which he hath withheld.
