J. Put Smith, who owns a ranch in Wasco county, had the misfortune to lose his valuable stallion Waterford a few days ago. Some malevolent person gave the animal a dose of strychnine, from the effects of which he died in a few minutes. There is no clue to the perpetrator of the outrage. Mr. Smith purchased Waterford recently in California, paying for the animal \$2,000.

Messrs. J. W. Brazee, Geo. L. Hibbard and John Switzer, of Portland, have filed articles of incorporation in the county clerk's office, also in the office of secretary of state, organizing the Oregon Boot, Shoe and Leather company. The capital stock is \$50,000, divided into 500 shares of \$100 each. The company intends to build and operate one or more tanneries in connection with the jobbing business at Portland.

A communication from the Santa Rosa Republican, from the pen of W. H. Rector, a well-known Oregon pioneer, shows that hoochinos, or spirits distilled from molasses, is not an Alaska novelty, but was known in the early days of Oregon as "Blue Rain," and was manufactured in this city in Col. McClure's time, in 1846, when Astoria was occupied by the Hudson bay company as a trading post. Richard McCrary, an American, claimed to be a distiller, and disputed the right of the law prohibiting him from following his legitimate business, and equipped with a large iron pot, that had found its way into the country by accident, and a few home made appliances, he went to work and brewed a vile article of molasses that came from the islands and distilled it. The result was an intoxicating beverage of which a small dose produced insanity.

Have you seen Prof. Adler's musical wonder, the Organina, if not do so; it was admired by hundreds of our citizens since its arrival.

The Literary Revolution.
 CHANGE OF BASE.
 This very remarkable enterprise continues to make such progress as to astonish its friends and astound its enemies. Its greatly increasing proportions have compelled the removal of its head-quarters from the Tribune building to the very large and beautiful building, No. 764 Broadway, which is in the very midst of the "book district" of New York city, and, therefore, of the publishing enterprise of the nation. This building, though six stories in height, 25 feet front and 100 feet deep, is sufficient only for the offices and retail store of the company. The manufacturing is carried on in several large buildings located in other parts of the city, though it is contemplated concentrating them soon in one immense factory to be erected.

Their list of recent and early forthcoming publications are extremely interesting to all who enjoy what is choicest in literature. The Library Magazine is unique in both form and character and although delightful in the richness of its contents. Of the books announced, Green's larger History of the English People, reduced from \$10 to \$1; Carlyle's History of the French Revolution, reduced to 40 cents; Carlyle's Heroes and Hero Worship, 25 cents, and the Revised New Testament, which is promised to be manufactured with rapidity heretofore unheard of, will attract special attention. It is worth while for every one who has not already seen it, to send and get an illustrated pamphlet, Book Making and Type Setting by Steam, which will be sent free upon application. Address, the American Book Exchange, 764 Broadway, New York.

The governor has commuted the sentences of Frank Thompson, Frank Laurence, and P. M. Bandanza, sent from Yamhill county for the crime of larceny for the term of two years each from June 6, 1879; reasons assigned for executive clemency, uniform good conduct and term of sentence being nearly expired.

J. T. Lady, of Sheridan, recently took a cartridge in his left hand, supposing it to be empty, and attempted to remove the cap, but it was loaded and it exploded. A piece of the shell struck him near the mouth, cutting an ugly gash reaching nearly to the ear, and another piece took off the end of one of his fingers. The ball, a large one, entered the palm of his hand near the center and passed through, lodging against the skin on the back, and was removed by the doctor cutting the skin and taking it from the back of the hand. The concussion crushed the whole palm of the hand to a jelly.

Syphon Study Lamp.
 Hon. I. W. Case, of Astoria, in placing the new Syphon study lamp on the market, would call the attention of the trade to some of its merits. Its illuminating qualities are not equalled by any study lamp in use. A cough, cold or sore throat should be stopped. Neglect frequently results in an incurable lung disease or consumption. Brown's Bronchial troches do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in asthma, bronchitis, croup, catarrh, and the throat troubles which singers and public speakers are subject to. For thirty years Brown's bronchial troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cents a box everywhere.

Harrisburg, Pa., November 18th, 1880. Dr. B. J. Kendall & Co., Gents:—I have a very fine mare that has had a bone spavin for a long time. I tried every thing man could devise to cure it but all in vain and was about to give it up when a friend of mine in this city came to me and recommended Kendall's Spavin Cure which I tried with grand results, removing that bone clear and clean and then I sent 25 cents to you for one of your illustrated Horse Books and I think there is no better book printed on the horse and his diseases. I have taken great interest in it and have since sold 18 copies for you to my neighbors and will try and do what good I can by getting them for others.
 Yours truly, G. W. MILLER.
