The Weekly Astorian

Is a mammoth sheet, exactly double the size of the Daily. It is just the paper for the household, containing in addition to all the current news, choice miscellany, agricultural matter, market reports, etc.

THE CITY.

THE DAILY ASTORIAN will be sent by mail at 75 cents a month, free of postage. Readers who contemplate leaving from the city can have THE ASTORIAN follow them, DAILY or WEEKLY editions to any post-office without additional expense.

The steamship Columbia sailed early yesterday morning.

The steamer California has not yet arrived at this port.

Miss Mollie Pope leaves for Portland this morning.

See Max Wagner's new advertisement in another column to-day.

The Scottish Fairy, from Yokohama, arrived on Thursday evening.

Old Sol was invisible yesterday. Persistent Pluvius staid with us all day.

The Glencorn will be taken down to bar-enclosure by the Brennan this evening.

Prof. J. P. Feaster's writing school is well attended, he having fifty scholars at present.

Mr. A. Noltner, editor of the Standard, made us a pleasant call yesterday. He returns to Portland this morning.

The barkentine Jane A. Falkenburg, Capt. L. H. Hubbard, arrived at San Francisco from Honolulu on Thursday last.

The rattling of cans at the various canneries along the city front are now daily to be heard. Active preparations are being made for a busy season.

The continued hum of Mr. Miller's planing mill is music to the ears of Tillamookers. Mr. Miller is turning out a fine variety of dressed lumber, all of which is spruce.

Mr. John Fox is overhauling Rescue Engine company's Silby engine. A complete new set of tubes, numbering over three hundred, will be put in. The Silby is one of the finest engines on the coast.

The new steamer being built at South Bend for the Shoalwater bay trade will be launched on Wednesday next. She is a fine steamer and owned by people on Shoalwater bay. The event will be enlivened by a grand ball in the evening.

Max Wagner's new bowling alley will be opened at the Great Eastern to-night. Max invites all his friends to be there. An excellent lunch will be served and the best San Francisco National brewery beer. Music by the grand orchestral organ.

Quite a number of horses throughout the city are still affected with epizootic. We yesterday noticed one horse hardly able to walk, while his smart could be heard for a considerable distance. This should be classed cruelty to animals and dealt with according to law.

Upper Astoria is rapidly increasing in size. Many new buildings are being erected, while the numerous factories, the Astoria boat and shoe factory, the Astoria box and lumber factory, the hemlock tannery, packing establishments and business houses represent wide-awake and progressive citizens.

Mr. E. C. Holden, city assessor, is anxious that all the tax-payers who have not handed in their returns shall do so without delay, as the assessment book to be handed into the city council will be commenced in a few days, and if there are any errors in assessing on account of no return having been made by the tax-payers, it will be much more trouble for them to have to put in an attendance upon the board of equalization, than to hand in a correct return of their assessable property now.

Columbia River Bar.

EDITOR ASTORIAN: Since we have failed to get an appropriation for the improvement of the bar, what is to be done? We cannot afford to let it remain as it is, and I am therefore decidedly in favor of the city of Astoria undertaking at its own expense to proceed with the dragging begun by Col. Gillespie.

The fact is that the dragging twenty days deepened the cut-off three or four feet. Suppose we continue that dragging at a cost of fifteen hundred dollars for twenty days more? The three or four feet more that we will get will be sufficient for the temporary improvement. It will give us twenty-one feet at low water and twenty-eight feet at high water from Astoria right out to sea.

How shall we get the \$1,500? By city bonds, ten years to run, bearing eight per cent. I guarantee they will be taken at par. This will only increase the tax one hundred and twenty dollars per year, an insignificant amount compared with the benefits.

A TAXPAYER.

The manufacturing capacity of port Blakely mill from May 1st next, will be 200,000 feet daily.

The residence of Mr. Quiner, near Steptoe, was totally destroyed by fire one week ago last Tuesday.

Oliver Henderson, who lives four miles below Vancouver, has a three year old Norman Clydesdale colt, which now weighs 1294 pounds, and still growing.

The people of Tillamook are endeavoring to incorporate a company for the purpose of erecting a salmon cannery at Garibaldi. It is hoped they may succeed in the enterprise.

The Roman Catholic church at New Tacoma was broken into last week and robbed of its chalice and other sacred articles. Several hoodlum boys attending the public school, are said to be the vandals.

Capt. Parker has made some progress in taking out the machinery of the wrecked Tule, notwithstanding the bad weather. The super heater was taken up to Eugene last week and other parts are expected soon to follow.

The stone for filling the cribs to be hereafter used for Coos bay harbor work will be quarried at Barker's place at Rocky point. It is thought that by so doing the expense of sinking the cribs will be considerably less than would be the case in taking the rock from Coos river as was done last summer.

A correspondent of the Oregonian, writing from the lower Cascades under date of March 22d, sends the following: "On Saturday, the 19th inst., Charles M. Hecker, foreman of the track on the Oregon side, commenced laying the first steel rail opposite the old garrison on the Oregon side. He will keep up with the graders, so they can get all supplies on this new road without landing on the Washington territory side or lower Cascades. The incline is all ready to run on, and engine No. 1 will be brought over in a few days; also two flat cars."

Carl Adler is in receipt of a number of first-class bicycles. Also baby carriages in great variety.

Carl Adler is agent for the best musical instruments on the coast. His large stock is excellent by none, and selling fast.

Carl Adler has an experienced watchmaker, jeweler and engraver in connection with his well known watch and jewelry store. He will remain permanently for the purpose of attending to all kinds of work in his line. All work warranted.

For the best Beer in Astoria, call for the Columbia Brewery Beer, acknowledged to be superior to all others.

Since the Chinese started to brew "cheap San Francisco beer" there is little or no demand for that article any more. Call for the Columbia Brewery Beer, if you want something good.

By a recent postal decision men can actually make money by getting their bills and statements of accounts printed. Statements of accounts and bills of sale when made out on paper having printed headings, can be sent by mail for one cent, if the envelope is left unsealed; whereas, if it is made out on unprinted paper, it will cost three cents. Thus by patronizing THE ASTORIAN two cents can be saved on every bill or statement that is sent out through the mail.

You may say what you please, but there is luck in horse-shoes. A Dallas woman nailed one up against the woodshed a month ago and last week her husband eloped with the hired girl. The man had not earned a cent for more than two years.

"Seth," said Mrs. Spicer, "I wish you would go and see to the furnace; that Kate is putting in coal as if she was firing a locomotive." And when Spicer remarked that the girl was perhaps a railway Cinderella, Mrs. S. grow warmer than ever.

Gilhooley lives in Salem, not far from a milkman. Lately he met the milkman, and taking him off to one side, asked him seriously: "Wasn't there a fire in your barn early yesterday? I had a great notion to rush over to your assistance." "Why, there wasn't no fire about the barn," said the milkman, his eyes sticking out like door-knobs; "what made you think so?" "Nothing, except I saw you pump two buckets of water right quick and rush into the stable with them where you milk your cows."

HORSE

And his Diseases, by B. J. KENDALL, M.D.

Full of Valuable and Practical Information, and Containing an INDEX OF DISEASES.

Which gives the symptoms, cause and the Best Treatment of each; a table giving all the principal drugs used for the Horse, with the ordinary dose, effects, and antidote when a poison; a table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse; 65 engravings showing the important points in the structure of the horse, also illustrating positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each. EVERY FARMER SHOULD OWN THIS BOOK.

Thousands who have seen it comment it, and many good horsemen have extolled it in the highest terms, even stating that they prefer it to books which cost \$5.00 to \$10.00. Do not throw away your money in the purchase of costly books on the horse, which are so full of Latin phrases and technical terms as to be unintelligible to the average reader but BUY KENDALL'S TREATISE, A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost. Having examined this book thoroughly we are satisfied no HORSE-OWNER

Would hesitate a moment about investing 25 cents in its purchase, if he did not know the value of its contents. Recognizing the desirability of having such practical information as our farming friends daily need in their business, provided at reasonable cost instead of being obliged to pay the enormous profits demanded by the Publishers of most Agricultural Books, we have secured Several Hundred Copies

Of this valuable little Treatise on the Horse, single copies of which we shall be pleased to mail to any reader of this paper, postage prepaid by us, on receipt of 25 CENTS.

Remittances may be made in currency, silver or stamps. Send all orders to D. C. IRELAND, Astoria, Oregon.
